The Beginner ski slope is for beginners only, and is meant to be used by skiers that are not ready for the rope tow yet. There is no charge for use of the beginner ski slope.

The skating rink is an outdoor, uncovered manually flooded rink that is open when temperatures permit. The warming hut is available during the hours that the ski area is open. However, you are welcome to skate anytime from dawn until dusk when the ice allows. There are a limited number of skates, in various sizes, available for use when the warming hut is open. There is no charge for use of the skating rink.

The sledding hill is located to the right of the ski slope, is also used as the beginner ski slope, so sledders need to use caution to avoid skiers. The hill is open for sledding when there is snow. There is no sledding allowed on the rope tow ski slope, and doing so could result in a loss of all of your area privileges.

The Recreation Department has received donated skis, poles, boots, helmets, and skates. If you would like to borrow some equipment please see the warming hut attendant. There is a waiver that must be signed by an adult for any borrowed equipment. We ask that when you outgrow it, or if you have other equipment that you've outgrown or don't use, that you donate that for others to use!

If you have any questions you can call either  
The Lincoln–Woodstock Recreation Department at 745-8673  
or the Kanc. Recreation Area at 745-2831.
