III. MEETING WITH ALEX RAY RE: COMMON MAN PARKING LOT

Mr. Alex Ray, owner of the Common Man Restaurant, attended the meeting to discuss his lease agreement with the Town for the land he uses as part of the restaurant's parking lot. O.J. Robinson explained that the most recent lease agreement expired this past March. The Town proceeded to have an appraisal of the town land done to determine the fair market value in order to fairly negotiate a new lease. The appraisal came back at \$136,000 on the .86 acre parcel. A lease on the newly calculated value would be \$16,320 annually. O.J. explained that .86 acres could be two building lots. Mr. Ray stated that he wasn't overly excited about the large increase in the lease amount. The past year's lease was \$1700 for the year. Mr. Ray gave a history of his relationship with the Town of Lincoln via the Common Man as well as the benefit the restaurant brings to the Town. However he stated that he does understand the fiscal responsibility required of the board. O.J. Robinson added that he appreciates the business Mr. Ray does in town and also wants to be fair to the taxpayers and other business owners. After further discussion, all agreed to draw up a new lease agreement to cover a 17 month period. The past 7 months will be paid at the old rate and 17 months at the new rate. After 12 months, Mr. Ray will let the Town know whether he is interested in purchasing the land at the end of the 17 month lease and if so, it will give the Town 5 months to start the public bid process. The board thanked Mr. Ray for meeting with them. Mr. Ray left the meeting.

Paul Beaudin commented that before the Town considers selling the property that Mr. Ray is currently leasing, they will have to go before the voters at town meeting as this property is part of the land that was gifted to the Town as part of the Kanc Recreation Area. O.J. Robinson acknowledged but disagreed with Mr. Beaudin's statement.

IV. OLD / NEW BUSINESS

Public Participation

Paul Beaudin addressed the board regarding his most recent tax bill. He stated that as a taxpayer, he is totally dissatisfied with how the board is overseeing the finances of the town. He isn't sure why his tax bill continually goes up at an average of 4% per year and he is unhappy about it. He does not think the board tries hard enough to maintain the tax rate and keep taxes down. Going into this budget season, he would like the board to take a hard look at next year's budget.

After a lengthy discussion regarding the finances of the Town, O.J. pointed out that the taxes go up because of appropriations voted on at town meeting. He explained that for many years the Town's capital reserves have been underfunded in order to keep taxes down. As a result, the Town has 40-60 year old infrastructure under the roads, primarily in the residential district that now has to be replaced. Former leadership in the town did not adequately save or plan ahead for this work to be done which has put the Town in this situation. Going forward, the board does not think it is fair to continue this trend of putting off saving for necessary projects for the future generations of taxpayers to have to pay for. Tamra Ham added that it is irresponsible not to maintain the current infrastructure just to keep the tax rate low. Patricia McTeague stated that a large portion of the taxes are generated out of the school budget. Paul replied that he also plans to attend a school board meeting to voice these same complaints to them.

Paul stated that he believes there are a lot of creative measures the board can take to change the way they do business that would help maintain a lower tax rate for the people in this town. He does not want to see people have to move out of town because they cannot afford their tax bills. Jayne Ludwig added that her tax bill has gone up substantially and she asked that the board please take it easy on the taxpayers.

The board also discussed how the end of year annual surplus is applied. Dave Beaudin questioned how much of the surplus is typically left at the end of the year. O.J. Robinson will find out that number and let him know at the next board meeting. Tamra Ham stated that the NH Department of Revenue typically requires 8-14% be kept in reserves. She added that after Hurricane Irene, the Town had to draw a substantial amount from reserves. She was very happy that there was a fair amount in reserves to help pay for all of the damages.

Paul Beaudin stated again that as a taxpayer, he feels the board can do a better job in their financial planning.

The Pollard Road reconstruction should be complete this week. Some landscape work and seeding will have to be done in the spring. The Kanc Rec Road is also complete. Alex Ray has worked with the

Town on the drainage issue from the Common Man parking lot onto the Kanc Rec Road so that will not be an issue going forward. The quality of the work done on these roads is excellent.
