### Town of Lincoln Capital Improvement Program 2021 - 2026

**Tentatively November 11, 2020** 

Adopted by the Lincoln Planning Board November 11, 2020 On behalf of the Planning Board, it is my pleasure to submit the 2021 Capital Improvements Program (CIP), as adopted by the Planning Board on November 11th, 2020.

As presented, the CIP achieves the RSA 674:6 goal to "classify projects according to the urgency and need for realization." In that regard, users of this program should understand that, as set forth in RSA 674:5, the "sole purpose and effect of the capital improvements program shall be to aid" the Board of Selectmen and the Budget Committee in their deliberations as they prepare a proposed budget for consideration by the March 9, 2021 Town Meeting.

We trust that the Town officials will find this year's edition of the Town's CIP to be a valuable reference and resource document as the Boards prepare the proposed FY2021 capital improvements funding program for consideration by Town Meeting.

Very truly yours,

Jim Spanos, Chairman Lincoln Planning Board

The CIP Committee met throughout development of this proposed, draft document.

The Committee also spent much time this year, coordinating with department heads, revising and enhancing the "Project Summary (Numerical) Listing."

### **Authorization**

Pursuant to State RSA 674:5 and Warrant Article #25, as adopted at the March 12, 1996 Lincoln Town Meeting; the Lincoln Planning Board was authorized to "prepare a recommended program of municipal capital improvement projects projected over a period of at least six years. The sole purpose and effect of the capital improvements program shall be to aid the ... [Board of Selectmen] and the budget committee in their consideration of an annual budget."

In addition, RSA 674:22 requires the development and formal adoption of both a Master Plan and a Capital Improvement Program (CIP) prior to enacting growth management and/or impact fee ordinances.

### **Introduction**

The following CIP represents an analysis of local finances, identifies capital needs, prioritizes these needs, and recommends a schedule for financing based upon projected resources. Advance scheduling of municipal projects allows the town to schedule costs over a period of years and to avoid wide fluctuations in tax rates. Early arrangements for financing may put the town in a position to take advantage of favorable bond markets or to qualify for various state and federal assistance programs.

The CIP is not a static document and it is updated annually. The annual update should reflect the decisions made at town meeting that influence the priorities and budgeting mechanisms described in the CIP. The document is adjusted to meet the needs of the Board of Selectmen, Budget Committee and Planning Board.

### What is Capital Improvement Program (CIP)?

The Capital Improvement Program is a comprehensive listing of all major town improvements to be made during the next six years, together with a fiscal analysis of each improvement. The program, when adopted and fully utilized, serves to ensure that Town facilities and infrastructure are provided in accordance with the needs and within the financial capabilities of the Town of Lincoln.

### Benefits of the CIP

The CIP is an important management tool for the allocation of limited resources. It allows the community to program capital expenditures into a rational planning and budgeting process.

The CIP helps preserve public health, safety and welfare by avoiding the practice of delaying or deferring major maintenance expenditures and basic improvements of essential services. Expensive stopgap measures are often implemented without ever addressing the comprehensive long-term needs.

The CIP and Master Plan should be used in combination to anticipate the future growth of the community and therefore avoid expensive expansion of facilities. By adopting a CIP annually, portions of expansion projects may be funded with impact fees in accordance with the State statutes.

The CIP process also improves communication and coordination among departments. One such example would be that the school department and the town are now aware of each other's projects. It also improves communication with citizens. The process allows for a public discussion of the preferred means of distributing capital costs not only over time, but also among users of the facilities.

An effective CIP helps to avoid undue tax increases at the local level. By planning ahead, the community can spread the burden of new capital expenditures over time. A surprise hike in taxes due to large capital expenditures can be avoided. A well thought out capital improvement project might be more attractive to a potential grantfunding source.

The development and formal adoption of a capital improvement program is a statutory prerequisite to the enactment of growth management and impact fee ordinances. The CIP also can be used as a tool by the Planning Board to determine if a proposed subdivision is scattered and premature.

The CIP can also bring economic benefits to a community. A community with sound fiscal health and high-quality services is attractive to a business and provides a better quality of life.

### The Capital Improvement Program (CIP) Process

The Planning Board, the Board of Selectmen and the Budget Committee review and utilize the CIP as a *planning tool*.

Once the program has been adopted by the Planning Board, it is reviewed and updated annually by the Capital Improvement Program Committee (CIPC) who makes recommendations for the upcoming year's capital budget to the Planning Board following coordination with department heads, the Board of selectmen and the Budget Committee. The CIP Committee obtains input and updates from each department head and the school district to determine new and/or continuing project needs as well as the status of existing projects. Each annual update adds an additional year to the schedule so that a six-year program period is maintained.

The Capital Improvement Program Committee (CIPC) is a standing committee of the Planning Board, whose purpose is to assist the Planning Board with its annual adoption of the CIP. The CIPC is an appointed committee. The CIPC receives, evaluates and makes recommendations on capital improvement projects requested by each municipal department. The CIPC's function as an appointed body is advisory in that it makes recommendations to the Planning Board on priorities for funding requested for capital improvement projects. During 2000, the CIPC created an Advisory committee in order to specifically address priorities among the many proposed CIP Projects.

For the CIP budget prepared this year, the CIPC, established \$1,394,943 as the 2021 expense total for all Capital and Bond financed projects. This represents an increase of \$18,273 (1.3%) over the CIP adopted by the Planning Board for 2020. This total is \$125,324 less than the target amount of \$1,520,267.

Article V of the CIPC Bylaws sets forth the CIP Process, including general milestone deadlines.

### **Definition of a Capital Project**

A capital improvement is defined as expenditure for public facilities costing more than \$15,000 (total) and considered beyond the scope of normal annual operating expenses.

### **Financial Recommendations**

Pertinent information along with specific details, where necessary, pertaining to each of the proposed projects is included in the "Chronological List of Projects". Scheduling of these projects over the next six years per respective department is included in the "CIPC Consolidated Spreadsheet".

As of the publication of this document, Town Staff are preparing results of additional in-depth research that will be used in conjunction with this CIP document during the FY 2021 budget proposal activities of the Town.

### **Bylaws of the Capital Improvements Program Committee (CIPC)**

### **ARTICLE I AUTHORITY**

Pursuant to RSA 674:5 and Warrant Article No. 25, as adopted at the March 12, 1996 Town Meeting, the Lincoln Planning Board hereby creates a permanent standing committee, to be named the "Capital Improvements Program (CIP) Committee."

### **ARTICLE II PURPOSE**

The purpose of the committee will be to assist the Planning Board in its annual adoption of a Capital Improvements Program by performing any task deemed appropriate to the implementation of RSA 674:6 and RSA 674:7.

### **ARTICLE III MEMBERSHIP**

- A. The committee will be comprised of four (4) voting members, as follows:
  - Representative of the Planning Board
  - Representative from the Budget Committee
  - Selectman's Designated Representative
  - Public or Staff Representative
- B. The Planning Board may determine changes to the previous year's committee structure at any time.

### ARTICLE IV ORGANIZATION

- A. The Chairman of the committee will be the Representative of the Planning Board.
- B. The Finance Director is hereby designated as the financial officer.
- C. The CIPC Chairman is hereby designated as the primary contact.
- D. The office of the Planning Board/CIP Secretary will be responsible for providing staff support for the purposes of taking and preparing committee minutes and other routine staff needs of the committee.

### ARTICLE V RESPONSIBILITIES

- A. The CIP process is generally set forth as follows:
  - On or about **June 1**<sup>st</sup> each year, letters are sent out by the representative of the Planning Board to department heads requesting their detailed CIP project submittal information for the next fiscal year. Each year the department head reassesses all of the prior project requests and adds a new sixth year.
  - Step 2: By July 1<sup>st</sup>, all project requests are due back to the CIP Committee.
  - Generally speaking, the CIPC meets from **July through October** to prioritize all requested projects and develop the draft CIP. As part of the process, the CIPC may create a sub-committee; known as the "CIP Advisory Committee," whose sole purpose will be to assist the CIPC in creating a priority ranking of all CIP proposed projects.

- Step 4: By November 15<sup>th</sup>, the CIPC, makes its recommendations to the Planning Board.
- Step 5: By the end of **November**, the Planning Board will conduct a public hearing and take action or amend the CIP based on input from the public hearing.
- Step 6: By **December 15<sup>th</sup>**, the Planning Board adopts the CIP and distributes it to the Budget Committee, the Board of Selectmen and the general public to be used as a planning tool.
- B. In addition to a proposed Capital Improvements Program, at the end of its annual work as a CIPC, the Committee will address any matter deemed appropriate by the Committee, including a critique of these committee by-laws.

Last revised by the Planning Board during its meeting of October 9, 2019.

James Spanos Chairman of Planning Board

### **Certification of the Capital Improvement Program**

In accordance with the provisions of RSA 674:5-8; the Lincoln Planning Board does hereby adopt the Town of Lincoln Capital Improvement Plan dated November 11, 2020 which shall be further updated by the Planning Board from time to time.

Date Adopted: November 11, 2020			
For the Lincoln Planning Board:			
Jim Spanos, Chairman			

A copy of this document is on file in the Town Clerk's Office in Town Hall as well as at the State of New Hampshire Office of Energy and Planning in Concord.

### **Numerical List of Projects**

### #1 No Project Assigned This Number

<u>\$0</u>

#2 Engineering

\$ On Going

Submitted By: Town Planner, Director of Public Works and/or Town Manager

To be used for the general engineering needs of the Town.

### #3 Pumps, Controls, Valves, Monitors

\$ On Going

Submitted By: Director of Public Works

Ongoing replacement of water system equipment.

### **#4 Municipal Building Roof Replacement**

\$40,000

Submitted By: Director of Public Works

Replace roof as needed.

### #5 Recreation Department Van Replacement '18 Ford Transit

\$30,000

Submitted By: Recreation Director

Current use, wear and tear, and average annual mileage accumulating indicate the van will need to be replaced within five years.

### #6 Replacement of Exterior Siding on Water Treatment Facility

\$40,000

Submitted By: Director of Public Works

### **#7 Replace Roof of Recycle Center Building**

\$19,000

Submitted By: Director of Public Works

Replace roof as needed.

### #8 Sewer Maintenance Repair/Replacement

\$100,000

Submitted By: Director of Public Works

Repair/replace variable frequency drives, Route 3 grinder, motor control center, switch panels, lab equipment, etc.

### #9 El International Pumper (G13740)

\$400,000

Submitted By: Fire Department

Purchased 2013, expected life expectancy 25 years. Replacement in 2038.

### #10 Upgrade Police Department Computer & Records Management System

\$70,000

Submitted By: Police Department

Replace and/or upgrade the existing hardware and software in the Police Department Computer System in the station, operations officers and in the patrol cars (does not include radios). Also upgrade the Records Management System for the Police Department.

### #11 Highway Garage Infrastructure

\$30,000

Submitted By: Director of Public Works

Ongoing infrastructure repairs and upgrade.

### #12 To Replace Water Intake Gallery (Bond ends 2019)

\$1,000,000

Submitted By: Director of Public Works

Bonded in 2013 (\$500,000) and completed 2014. Future replacement 2034.

### **#13 Replace Snow Guns**

Submitted By: Recreation Director and Director of Public Works

a. Areco 2011 – purchased 2019	\$15,000
b. Areco Jr 2009 – purchased 2014	\$15,000
c. Pole Cat SMI 2014 – purchased 2018	\$15,000

### **#14 Communications Upgrade to Water System**

\$125,000

Submitted By: Director of Public Works

Improve tele-communications from all water sources and the water treatment plant.

### **#15 Replace 2009 100 CFS Portable Compressor**

\$15,000

Submitted By: Director of Public Works

Replaced in 2009, expect 20-year service life. Next planned replacement 2029.

### #16 WTP Disinfection System

\$ To Be Determined

Submitted By: Director of Public Works

### #17 Lower Black Mountain Road

\$60,000

Submitted By: Director of Public Works

Next should be 2021. The immediate cost will be about \$90,000 in 2021. The overall cost is to be determined.

### **#18 Library Building Infrastructure**

\$97,000

Submitted By: Library Trustees

Ongoing repair and replacement of library building infrastructure.

### #19 Garage/Maintenance Shed at Kancamagus Recreation Area

\$45,000

Submitted By: Director of Public Works & Recreation Director

Includes replacing the bull wheel hut, storage for equipment and the groomer with a new building.

### #20a Misc. Maintenance/Repair/Replacement for Property & Building Maintenance

\$15,000

Submitted By: CIP Committee

Exterior concrete and brick work on Town Hall. Completed last was 2007. Date of estimated work is 2024.

### **#21 Town Wide Dispatch Communications Improvements**

\$325,000

Submitted By: Emergency Management

Improve and/or replace existing Dispatch Communications equipment including base radios, repeaters, car radios, and portable radios. This system provides for emergency and radio communications for Lincoln Dispatch, Police, Fire, Public Works and Town Administration. It also provides radio communications with other Police and Fire Departments through Mutual Aid.

### **#22 Proposal to Replace Loon Pond Dam**

\$425,000

Submitted By: Director of Public Works

Replacement and repair of Loon Pond Dam. Completed 2016. Next due 2116.

### #23 New Town Services Building/Location Feasibility Project

\$ On Going

Submitted By: CIP Committee

Study of possible new Town Services building, to include Town Hall, Police and Fire services.

### **#24 Revaluation Statistical Update/Utilities**

\$100,000

Submitted By: Board of Selectmen

Revaluation is required every 5 years

### #25 Update Town Master Plan

\$40,000

Submitted by Town Planner

Last redraft of Master Plan was conducted in 2016. Revisions are required every ten years. Next Plan due in 2026.

### #26 Sewer Town-wide Jetting & Camera Inspection

\$ On Going

Submitted By: Director of Public Works

The project will provide new data on the sewer system. It is needed to enable decisions pertaining to improvement of quality or efficiency of existing service as well as future needs of the Town in regards to master planning. To be completed on an ongoing, rolling basis.

### #27 Sewage Treatment Aerator Replacement & Upgrade

\$ On Going

Submitted by: Director of Public Works

To be completed on an ongoing, rolling basis.

### #28 Loon Mountain Road Reconstruction -Octagon Lodge to Boyle Brook

\$150,000

Submitted By: Director of Public Works

Joint project with Loon Mountain. Completed in 2012. Next due 2032.

### #29 Solid Waste - Existing Equipment Replacement Fund

\$100,000

Submitted By: Director of Public Works

This project creates a fund dedicated to the replacement of existing equipment on a scheduled or unforeseen basis. The service area involves both Lincoln and Woodstock town wide.

### **#30 Repave Recycle Center Roadway**

\$60,000

Submitted By: Director of Public Works

Repave sections as needed.

### #31 Village Center Trails & Riverfront Park

\$2,300,000

Submitted By: Town Planner, Recreation Director and/or Town Manager

The project is to construct a river walkway with amenities, parking spaces and landscaping based on the results of a design plan, which has yet to be prepared. The project will provide a new facility. It is needed to create a new facility and provide added capacity to serve growth. Lincoln/Woodstock.

### #32 Water Meter Recalibration/Replacement Project

\$500,000

Submitted By: Director of Public Works

This project involves the replacement of existing water meters, whose life expectancy is about 10 years. Project was proposed to be implemented in FY 2003-2004 town-wide.

### #33 Water Treatment Plant Media Change Replacement

\$85,000

Submitted By: Director of Public Works

Filter media replaced in 2011. Expect a 15-year service life. Next planned replacement 2026.

### #34 Misc. Maintenance/Repair/Replacement for Roads & Streets

\$411,000

Submitted By: Director of Public Works

### #35 WTP Town-Wide Water Distribution/Sewer Collection Upgrade

\$ Ongoing\*

Submitted By: Director of Public Works

The project expands the capacity of the existing water treatment plant. It is needed to improve quality or efficiency of existing services. See the 2001 Water Study prepared by Provan & Lorber, Inc. \*To be partially funded by Bedroom Impact Fee

### #36 Beech Wood 1 Paving and Drainage Repairs

\$600,000

Submitted by: Director of Public Works

Public Portions of Black Mountain Road, East Branch Drive, Beechnut, and Brookway Street. Bonded. Completed 2016. Next due 2036.

### #37 Hanson Farm Road Reconstruction Project

\$485,000

Submitted By: Director of Public Works

Completed 2016. Next due 2036.

### #38 Replace or Repair Four Garage Doors at DPW

Submitted By: Director of Public Works

\$15,000

Replace as needed, estimated life span 30 years. Last done in 2013.

### **#39 Community Center Building Infrastructure**

\$55,000

Submitted By: Recreation Director & Director of Public Works

Includes mechanical systems, interior building components, HVAC systems, roof, siding, pointing, etc.

#40 Ski Slope Top Shed

Submitted By: Recreation Director & Director of Public Works

\$40,000

Replaced in 2009, 20 year plus life expectancy.

### **#41 Expansion to Library Building**

\$100,000

Submitted By: Library & Director of Public Works

Construct addition to existing library building.

### **#42 Town Building Infrastructure**

\$ On Going

Submitted By: Town Manager & Director of Public Works

For major repair and replacement of mechanical systems, interior building components, etc.

### #43 Water Treatment Plant Building Upgrades & Maintenance.

\$100,000

Submitted by: Director of Public Works

Ongoing repair/replacement of WTP building. Addition of new storage room for chemicals and spare equipment.

### **#44 Replace Pump Wet Ends Connector Road**

\$25,000

Submitted by: Director of Public Works

Sewer pump station equipment needs. Replaced in 2013 next replacement estimated in 2023.

### #45 Tower Truck (G11210) (2001)

\$280,000

Submitted by: Fire Department

Purchased in 2017. Replacement will be needed in 2038.

### #46 E2 International 4900 Pumper (G02874) (2001)

\$400,000

Submitted by: Fire Department

Purchased in 2001. Replacement will be needed in 2025.

### **#47 R4 Rescue Vehicle (2009)**

\$140,000

Submitted by: Fire Department

Purchased in 2019. Replacement will be needed in 2034.

#48 Replace River Intake Pumps Reserve Submitted by: Director of Public Works	\$150,000
Replaced rebuilt in 2005 – will need replacement in 2021.	
#49 Rebuild/Replace Dumpster Vertical Pumps Submitted by: Director of Public Works	\$30,000
Completed last in 2013. Will need to be redone or replaced in 2023.	
#50 Rebuild/Replace Backwash Pumps/Motors Submitted by: Director of Public Works	\$16,000
#51 Replace Water Treatment Plant Caterpillar Propane Generators (2) Submitted by: Director of Public Works	<u>\$160,000</u>
Water treatment plant generator, replaced in 1992.	
#52 Replace Finish Water Pumps & 6 VFD's Submitted by: Director of Public Works	\$50,000

### #74 East Branch Pemigewasset River Levee (Bond Project)

Submitted by: Director of Public Works

\$1,400,000 (2018) Additional Funding \$400,000

(2020) Additional Funding \$311,000

Bond project.

(See also Project Number 107 Levee Maintenance.)

### #75 Replace Playground Equipment at Kancamagus Recreation Area

\$25,000

Submitted by: Recreation Department

### #76 Library Technology Maintenance, Upgrades and Repairs

\$ Ongoing

Submitted by: Library

The Library has 1-server and 2- computers which are presently deemed satisfactory for use. However, 2-computers need replacing, and 5-computers need upgrading. Future computer replacement will be done on an on-going basis as needed.

### **#77 Four (4) River Crossings**

\$250,000

Submitted by: Director of Public Works

Replace existing utilities crossing the main stem of the Pemigewasset River to the Cold Spring Well.

### #78 Repair/Replace Bombardier Groomer 2005

\$100,000

Submitted by: Recreation Department

Covers intermediate repair and eventual replacement of Bombardier Groomer in 2018.

### #79 Repair/Replace Caterpillar Diesel Tow Engine

\$15,000

Submitted by: Recreation Department

This item was replaced in 2005 and is recommended to be replaced in 2016.

### #80 "Old Hole" Public Access

\$ TBD

Submitted by: Public Works Director and CIP Committee.

### #81 Kancamagus Recreation Infrastructure (Dug Outs, lighting, Etc.)

On Going

Submitted by: Recreation Director

Project includes concession stand, fence and dugouts yet to be scheduled.

### #82 Community Center Future Expansion/Garage

\$ Needs Estimate.

Submitted by: Recreation Director

Short term repair roof of "old" barn and long term renovate it for use as a storage facility. Rotary may provide grant to complete this work.

### #83 Replace 10 Torque Valves

\$110,300

Submitted by: Director of Public Works/Water Department

### **#84 Sewer Inflow Study (Commercial Funded)**

Submitted By: Director of Public Works

\$75,000

The project will provide new data on the sewer system. It is needed to enable decisions pertaining to improvement of quality or efficiency of existing service as well as future needs of the Town in regards to master planning. Has to be completed per EPA schedule.

### #85 Fire Department Building and Infrastructure

\$ On Going

Submitted By: Fire Department

For major repair and replacement of mechanical systems, interior building components, etc.

### **#86 Pave Fire Department Parking Lot**

\$ Needs Estimate

Submitted By: Fire Department

Completed in 2013, life expectancy 20 years.

### **#87 Replace 2016 Ford Transit**

\$30,000

Submitted By: Recreation Department

Current use, wear and tear, and average annual mileage accumulating indicate the van will need to be replaced within five years.

### #88 Recycle Center Facilities and Land Improvements and Replacements

\$ Needs Estimate

Submitted By: Director of Public Works

### **#89 Riverside Cemetery Road Reconstruction**

\$15,000

Submitted By: Director of Public Works

### #90 Laboratory/Office Repairs and Maintenance in Sewer Treatment Plant (STP)

\$80,000

Submitted By: Director of Public Works

Includes repairs and replacement of laboratory equipment and repairs to the building.

### #91 Replace PLC

\$150,000

Submitted By: Director of Public Works

(The PLC stands for Programmable Logic Controller – the "brains" that runs the Water Treatment Plant.) Project completed in 2017.

### #92 No Project Assigned This Number. Available for assignment.

### **#93 Reclaim Edgewood Street and Coolidge Street**

\$160,000

Submitted By: Director of Public Works

Final project was completed in 2019. Next to be done in 2034.

### #94 Reclaim Liberty Road and Eagle Cliff Road

<u>\$200,000</u>

Submitted By: Director of Public Works

Presently scheduled to be completed in 2022.

### **#95 Ongoing Culverts and Drainage Repairs**

\$ On Going

Submitted By: Director of Public Works

### **#96 Sidewalk Maintenance**

\$ On Going

Submitted By: Director of Public Works

### #97 Kancamagus Recreation Area Parking Lot Reclamation/Expansion

\$40,000

Submitted By: Director of Public Works and Director of Recreation

### #98 Rebuild Boise Brook Pumps (2)

\$16,000

Submitted By: Director of Public Works

These 2 pumps are 20 years old and first one is in the process of being rebuilt in 2015. Life expectancy is 7-8 years.

### **#99 Cemetery Expansion**

\$160,000

Submitted by: Cemetery Trustees

To include expansion of current area, addition of cremation burial site and construction of a new maintenance building.

### #100 Route 3 Water Treatment Plant/Tanks

\$2,000,000

Submitted by: Director of Public Works

To build additional water storage tanks along with related piping and electronics. Also, to investigate the need for a water treatment plant to serve the north end of Lincoln.

### #101 Upgrade Cold Spring Well Facility

\$15,000

Submitted by: Director of Public Works

Includes repairs and upgrades to the Cold Spring Well facility.

### **#102 Fire Department Command Vehicle (2020)**

\$40,000

Submitted by: Fire Department

Purchased new in 2020. Year of Model was 2020.

### **#103 Loader Snow Blower Attachment**

\$150,000

Submitted by: Director of Public Works

To be used to assist with sidewalk, street and parking lot snow cleanup.

### #104 Kancamagus Recreation Area Multi-Use Covered Structure

\$45,000

Submitted by: Recreation Director

**#105 Community Building Repairs** 

Submitted by: Recreation Director

\$100,000

New roof, replace flooring, insulate walls with new studding and sheathing.

#106 Replace 2017 FORD F550 Plow Truck

\$80,000

Submitted by: Director of Public Works

**#107 Levee Maintenance** 

\$ On Going

Submitted by: Director of Public Works

TOTALS Including BOND SERVICE<sup>(3)</sup>

\$1,273,200 adjusted for inflation of +3.0% annually.

### NOTE

- 1 Amounts appropriated for WWTP Aerator Replacement Project are expended in same fiscal year as appropriation.
- 2 The "TOTALS" figure under the column "Total Est'd Cost" does not include the ongoing annual cost for revaluation maintenance.
- 3 In some instances new estimates or an inflation factor of 3.0% has been applied to the estimates in the column titled "Total Est'd Cost".
  - 4 Sewer tap fee funds available for all Waste Water Treatment plant and Town Infrastructure projects.
