LINCOLN BOARD OF SELECTMEN

ANNUAL REPORT 2007

Municipalities, as with everyone, deal with new situations on a regular basis. The responsibility of the Board of Selectmen is, very simply, to protect and improve our beloved town. Town meeting is a time of reflecting on accomplishments of the past and their evolution into the challenges ahead.

Ted Sutton is moving from his position as Town Manager into the next phase of his life. We want to thank Ted Sutton for his exemplary service to the Town of Lincoln. So very much has been accomplished to protect and improve our community under his management. He was the right man at the right time and has guided us through almost 6 years of significant change and growth in Lincoln. Ted set himself a standard that was always “above and beyond the call of duty”. The results of his unceasing effort we see all around us. We are financially healthier, better prepared for change, more organized and better planned for the future than before he took office. His legacy will help shape this town for many years and we are profoundly thankful. Ted, all the best to you in retirement and keep an eye out for your town, as we know you will. Your “open door” policy kept many issues from getting out of hand and made people feel they were being heard. That door will always be open to you.

As we review this past year we reflect on many issues:

- The dedication of the new Lincoln-Woodstock Community Ball Field and improvements to the community center including added programs for all ages. Our challenge is to monitor these programs and needed resources to more effectively serve the citizens of our community.
- Our industrial park is being advertised and we must continue to work to promote sales of lots to help increase our tax base and provide jobs.
- The removal of the solid waste incinerator shows us moving from the past. Lincoln, working together with the Town of Woodstock, is completing a town wide survey and professional review to determine the most cost effective and environmentally conscious means for handling the increasing demands of solid waste removal.
- The water system review and establishment of an Energy and Water Conservation Committee to insure we keep pace with the increasing demands of new growth.
- The completion of the Pleasant Street project as we work on the ever-constant needs of our highways and streets listed in our Capital Improvement Plan.
- Moving from the past to the future is reflected in the coming removal of the old paper mill wastewater treatment plant and the 2007 approved land transfer to North Country Center for the Arts for development of a new facility.
- Establishment of the Village Core Committee of dedicated volunteers working to develop a Capital Improvement Plan project of a Riverside Park with extending pathways to connect the town center with the town’s boundaries.
- After many years of cooperation between the Town (providing permitting) and Loon Moun-

LINCOLN BOARD OF SELECTMEN (CONT.)

tain, this past year's snowmaking line installation to Connector Pond led to the opening of the South Peak ski trails and a new era in Loon's and Lincoln's future as a resort community.

- Early meetings of the Lincoln Green Committee will lead to investigating the future housing needs for senior citizens and others.
- Agreements between the Town and the State will result in the repaving and restriping of the traffic lanes on Main Street this coming summer to better manage traffic flow. This change is part of a new traffic management plan worked out between the Planning Board and the developers during their Site Plan approvals at no cost to the Town.

Undoubtedly, one of the greatest ongoing challenges to our community is the issue of the Statewide Property Tax. This tax is exacted by the State to pay for education throughout the State but it has been very poorly managed in the past. We went through 6 years of a donor and receiver town system that cost Lincoln millions in tax dollars for which we received almost no benefit. This money was distributed by a formula that allowed a number of wealthy New Hampshire towns to receive a windfall in tax dollars and then spend the money on anything they pleased, and they did, often on anything but education! For the last two years the State has been operating under temporary legislation that has ended our donor town status and this has allowed us to achieve our current tax rate. We have worked and sacrificed as a town to keep our tax burden reasonable. The solution to help modify the impact of this dilemma is a constitutional amendment that is supported by Governor Lynch and will allow the legislature to distribute education funding to the most needy towns. This is called "targeted aid" and we believe this will be a fair and equitable system that will give all New Hampshire children an equal opportunity for education. The present legislation requires the same amount of money be distributed for every child regardless of how income wealthy a town may be and only widens the gap between the rich and the poor. This is our money and this is not how we want it spent. Through an organization of likeminded towns, former "donor towns," called the Coalition Communities we have been fighting to have the constitutional amendment placed on the ballot in November. We need your help. If we, the people of this State, make ourselves heard, loudly, the legislature will have to act on our wishes. They are supposed to represent us but often they find reasons not to. Let's make the message loud and clear and then hold them responsible for their actions.

As you can see, your Town Government is very active in pursuing issues and as Ted Sutton has said, "managing for the lows and the highs". This means working to spend our hard earned tax money wisely.

We appreciate and thank all town employees and all volunteers for your part in making Lincoln such a great place to live.

Respectfully submitted,

Chairman Deanna L. Huot

Selectman Peter E. Moore

Selectman R. Patricia McTeague

LINCOLN TOWN MANAGER

ANNUAL REPORT FOR 2007

At age 70, my time has come. I hope to do some more things with my life and my family (my wife, Herta, and our son, Tom, and his wife, Jennifer) while I am still able. Therefore, I have to thank all of you for a very enjoyable six years of managing the Town of Lincoln, but as of May 25th, I will be retiring. I have appreciated working for this excellent Board of Selectmen. With their leadership and direction, we have accomplished many projects and tasks that have been in the planning stages for so long, some as many as twenty years.

One of my responsibilities has been to conduct the duties of Town Planner and to work with the Planning Board. When I started as Town Manager, one of my goals was to insure that all the new development in Town, and its needed increased infrastructure, such as water, sewer, roads, fire and police protection, etc., would not be at the expense of the existing taxpayers. Through five years of planning and development, we now have an increased/upgraded, more efficient water system which continues to be expanded; we are closely monitoring the sewer system, and this year will receive \$117,000 towards new fire equipment. Collecting impact fees from all of the developments in town has also assisted us financially. We continue to collect these funds and thank the developers for their cooperation, which has allowed us to keep the town portion of the tax rate at \$3.04 for the last two years.

Another goal we had hoped to accomplish was to develop a good working relationship with all townspeople, local businesses and developers. This is so that we can have a more cohesive relationship that helps us all for the future planning of the Town of Lincoln. I must thank all those people for their cooperation and assistance, with appreciation to Elliott Custom Homes for their contributions to the development of the Community Center. The construction companies of Conn, Donahue and Caulder have all made contributions of time, energy and money at one time or another. They all continue to support the community in many ways. We also welcome the Kircher family, new owners of another great supporter, Loon Mountain, to the community.

Many of the people that have joined committees with the best interests of our community in mind have been our citizens, businesspeople and developers. The Village Core group, under the guidance of John Hettinger and Marilyn Sanderson, is working on creating and maintaining recreation areas along the East Branch of the Pemigewasset via hiking/biking/walking trails, kayak put-in, future riverfront park and access to swimming holes. The sign committee has worked hard over the past year to create a new ordinance that will enhance businesses and the look of Lincoln. The Lincoln Green committee, with Kathy Cook's guidance, is studying how to find alternative senior citizen or middle-income housing, so we can continue to look after our seniors in our community. The newly formed Energy and Water Conservation Committee will make sure we maintain energy efficiency of our environment while we grow. The Budget committee members, under the leadership of the Chairman of the Trustees of the Thrust Funds, Charlie Cook, give many hours every year to keep our financial plan on track. All of these committees have a good understanding of our community and will continue to work for the good of Lincoln.

The bottom line is that we all need to work together as a team. Communication is so important and has allowed us to develop an excellent tourism community that will continue to maintain our low

ANNUAL REPORT FOR 2007

tax rate and many community services. All of this work has also contributed to our school, recreation department, community center, and local ski hill, so that we are able to keep our children safe and well educated. It is so important, yet so hard to measure, how these programs help our community's members. The money we spend for our children today will impact the future of our community tomorrow.

After 20 years of working on the developing and permitting of the South Mountain project, including planning with Loon Mountain Recreation Corporation and Centex for the final master development plan for the base area, being able to ski and ride the new lift this fall was one of the highlights of my career. This project, along with the development of the core area, with the help of InnSeasons resorts, will continue to highlight Lincoln as an excellent recreation community.

Probably the biggest, most important assets to this town are its employees. Bill Willey does an outstanding job managing the highway, water and sewer departments, has a vast knowledge of all aspects of the operation, and does an incredible job of managing the amount of work he has to accomplish with his crew of three; David Beaudin, Daryl Hart and Andy Nichols. In the Town Hall area, Susan Chenard has proven to be very knowledgeable and incredibly dedicated to her work, and is a great asset to the smooth operation of Town business. Susan Whitman works so diligently at her job as Town Clerk and Tax Collector that you'd think every penny belonged to her. Tara Tower operates the Recreation Department with such enthusiasm and happiness; it's a joy to have her operating this large department. Helen Jones' calm, cool, collected, get-the-job-done attitude is very much appreciated in a very busy finance and assessing office. Stacey Boyce keeps the Planning and Zoning department moving smoothly. Police Chief Ted Smith has been very good to work with, particularly with his professional attitude in running his department. Fire Chief Nate Haynes is always interesting to work with and his vast knowledge and years of experience fighting fires has been invaluable to the Town of Lincoln and the entire volunteer fire department. Carol Riley has been doing an excellent job expanding the library's functions with many new activities and her friendly attitude has made the library what it is today.

A special thank you goes to the Board of Selectmen, whom I've been working closely with these past years. Chairman Deanna Huot is the matriarch of the Town of Lincoln; with her incredible number of years serving this community, she has been a wealth of knowledge and direction in helping me manage this town. Peter Moore's intellectuality has been a great asset both for the Board of Selectmen as well as his work as the representative to the Planning Board, where he, Pat Romprey and I have accomplished an incredible amount of work for the future planning of the community. Patricia McTeague's constant eye on the ball sees things that we sometimes lose sight of; her conservative tenacity keeps us focused. I thank them very much for a great several years.

I will not be leaving until the end of May, and will be working with the Board in finding a replacement. With that, I wish you all the very best.

Your Town Manager,

Ted

PUBLIC WORKS DEPARTMENT

ANNUAL REPORT 2007

March of 2007 was a little slower than an average year. The snowfall was a little short of our usual amounts, so we cut trees on Riverside Road to widen this section of road out. This kept us busy when we were not plowing.

This is also usually a good time for some schooling to take place, so Daryl Hart was sent to a Public Works Academy for five days. This school has safety classes, flagging classes, personal protective equipment, trenching and excavation, basics on roads and drainage, etc. This class also touches on basic water and sewer treatment.

We had a nor'easter in April; it took the public works crew about two weeks to clean up all the blown down trees and limbs. We made use of all the downed trees from the Nor'easter by having them sawed up into lumber and timbers, with which we built another much-needed storage shed. We also had a water break up at the Village of Loon.

In May, Dave Beaudin and I went to water treatment classes in Franklin, Littleton, and Concord. The classes are mandatory for us to keep our licenses. June was a busy month in the cemetery; we had quite a few burials, along with the usual fertilizer and lime spreading that we do annually to keep it looking nice.

By this time, Lyman Construction had started the roads and utilities improvement on Pleasant Street. This was an on-going demand on my crew during the summer, just dealing with the water stoppages and sewer breaks associated with this type of work. The job was about 95% complete by late August, and we were able to get pavement down by Labor Day. This was ahead of schedule and was very much appreciated by the residents on the street. I would like to thank all of the people on Pleasant Street for their patience while the work was being done. It was because of this that the job was completed early.

We did quite a bit of paving this year in different sections of town. The Community Center parking lot was completed, along with Liberty Road and Coolidge Street repairs. We also did a sewer main up-grade on Cross Street in late August, and repaved that road.

This year the EPA and NHDES issued a new permit for our wastewater plant. The permit requires that we develop an Operation and Maintenance program for our Sewer Collection System. This requirement is being placed on all communities nationwide under the EPA's new permit requirements. The Operation and Maintenance program will require us to evaluate the condition of our existing system and complete system rehabilitation to address any leaks to the system that we may find. Leaks can come from groundwater and surface water runoff as well as direct connections such as sump pumps, cellar drains, roof drains and area drains. This means getting cellar floor drains and roof drains out of the sanitary sewer, along with ensuring properly sized and maintained grease traps be installed for businesses connected to our system. As part of the program we will be completing infiltration and inflow monitoring town-wide, looking for leaks that are adding unnecessary demands on the treatment process. You will be hearing more about this in the near future as we develop our plan.

Thank you for all your help throughout the year. It is greatly appreciated,

Bill Willey, P.W.S

PLANNING BOARD AND ZONING BOARD OF ADJUSTMENT

Lincoln Planning Board

Charlie Cook	Alternate	16 of 20 meetings
Deanne Chrystal	Alternate	8 of 12 meetings
Michael Bovarnick	Clerk	2 of 7 meetings

Town Manager, Ted Sutton also attended 15 out of 20 of the Planning Board Meetings. There were no unexcused absences documented for FY 2007.

Lincoln Zoning Board of Adjustment

The Zoning Board of Adjustment members for 2007 and their meeting attendance for the year was as follows:

Joe Chenard	Chairman	3 of 3 meetings
Ron Comeau	Vice Chairman	1 of 3 meetings
Patricia McTeague	Selectmen's Representative	3 of 3 meetings
Wilfred Bishop	Member	3 of 3 meetings
Pat Leary	Member	3 of 3 meetings
Patty Noel	Alternate	0 of 3 meetings
Tom Smith	Alternate	2 of 2 meetings

There were no unexcused absences documented for FY 2007.

2007 Capital Improvements Program Committee

The 2007 Capital Improvements Program Committee comprised of John Hettinger, Deanna Huot and Ted Sutton was authorized to prepare the draft program for subsequent consideration by the Planning Board. On October 10, 2007, a Public Hearing was conducted and the Planning Board adopted the 2007 Capital Improvements Program. Thank you to all of the members who worked so hard on this years project.

PLANNING BOARD AND ZONING BOARD OF ADJUSTMENT

2007 Planning/Zoning Activity

During 2007, the Planning Department processed 63 Building Permit applications, 23 Sign Permit applications and the Planning Board held hearings on 23 applications for Site Plan Review, Subdivision and Voluntary Mergers.

During 2007, the Zoning Board of Adjustment met 3 times to consider a request for relief from the Land Use Plan Ordinance. If you are interested in becoming a member of the ZBA, please submit a letter of interest to Ted Sutton, Town Manager.

Alternate Denys Draper has resigned her position on the Zoning Board of Adjustment due to relocation. Thank you, Denys, for your dedicated service to the Board for many years. You will be missed!

The Zoning Board appointed a new alternate member, Tom Smith on August 8th. Mr. Smith is a great addition to the Board and we look forward to working with him.

The Planning Board appointed a new alternate member, Deanne Chrystal, on May 9th. Ms. Chrystal, with her legal background, has brought useful skills to the Board.

The Planning Board was occupied in 2007 with second home development. Centex Destination Properties continued with revisions to their Master Plan. Lincoln South Mountain Partners, a development company, whose application for Site Plan of "The Rapid's Project" has been approved by the Board. The Common Man has also applied for an approval of a 32-room motor inn to be located on the vacant lot between their property and the Forest Ridge entrance. At the request of the Board of Selectmen the Planning Board appointed a committee to review and revise the Sign Ordinance for the Town. The vote for approval by the Town will be by ballot this March. The 9-lot Small Business Park on Town owned land off Bern Dibner Road is complete. Steve Zalla from Coldwell Banker LinWood Real Estate is overseeing the sale of the lots. And finally, a Federal revision of the "Shoreline Protection Act" will go into effect on April 1st, 2008. This law will change the distance from the Pemi shoreline that defines where developers or individuals can build. It will also characterize what actions can be taken within this buffer. Planning Board meeting schedules are posted at the Town Office and on the Town website and the meeting minutes are also available at those locations. We encourage interested residents to attend meetings and express concerns. If you have questions about planning or permit applications please contact Stacey Boyce (Planning Administrator) at 745-8527 or stop by the Town Office.

Sincerely,

Stacey Boyce
Planning Administrator

LINCOLN POLICE DEPARTMENT

ANNUAL REPORT 2007

The Lincoln Police department had an extremely busy year in 2007. Over the past 3 years, our statistics were fairly stable and had peaked in 2003, when the highest calls for service we ever recorded stood at 20,138. After that it remained steady in the 18,000 range. But in 2007, it has again climbed higher than the 2003 level and is now at 20,531.

However, other statistics show that it was less busy in the amount of felonies we handled than the last 4 years. I will continue to watch this trend, but like any tourist community we are dependent on visitors. Unfortunately some visitors bring problems with them and others just need assistance. Our calls for service in 2007 showed that we were dealing with more non-criminal events than the previous four years, which is a very good thing for the community.

The year 2008 should give us a better reading of the amount of calls for service and types of calls that we will be faced with in the future.

The 911 system seems to be working well. The majority of the town has posted the correct numbers, but there are still some holdouts. The biggest problem is with the new houses in the area of Loon that are unnumbered or use a lot number, which causes delays in Public Safety responses.

The biggest change to our department was the joint cooperative effort of the department with the Linwood School system and assigning Officer Joseph Deluca as the School Resource officer. The position has been well received and Officer Deluca is doing a wonderful job in the school.

I am grateful for the support that we have received from the residents and business community. The cooperative spirit of the Lincoln community has assisted us many times in trying to serve this community.

EMERGENCY MANAGEMENT ANNUAL REPORT FOR 2007

Lincoln's Emergency Management program is based on developing and improving coordination with the various public safety agencies in Lincoln, the surrounding area, and with state agencies.

During the past year we were able to upgrade some of the communication equipment and the Emergency Command Center. The year was spent dealing with issues regarding possible epidemics in the state of New Hampshire and developing a regional response to medical emergencies that affect a wide region. Meetings were also held regarding locations in the Town of Lincoln that can be affected by Wildfires and possible resources that are available to effectively fight them.

In 2008 we plan on having a practical field exercise with other agencies dealing with a wildfire in order to see the practical side of the plans. In the past we have found that these exercises give us a sense of what is needed to increase an effective response

We will also continue to work to improve our abilities to respond to an emergency incident that affects this area

Respectfully submitted

Theodore P Smith
Director of Emergency Management

LINCOLN FIRE DEPARTMENT

ANNUAL REPORT 2007

In 2007, the Lincoln Fire Department responded to the following 166 calls:

Two firefighters, Jerry Ortkiese and Eric Cruger, will be attending Firefighter 1 class January 31, 2008 - June 5, 2008 for 200 hours of training.

There are still residences and businesses without 911 addresses affixed to the building. Without them, there are delays in response time for police, fire and ambulance. Please make sure your numbers are displayed for your own safety.

I would like to commend the outstanding job my firefighters do. I consider it a privilege to work with them. I would also like to thank the Town of Lincoln for its support of the Lincoln Fire Department and send a special thanks to all the businesses that support us when we have any major incidents. Your donations of food, drink and company do not go unnoticed.

Respectfully submitted,

Nate Haynes, Lincoln Fire Chief

REPORT OF THE FOREST FIRE WARDEN AND STATE FOREST RANGER

Report of Forest Fire Warden and State Forest Ranger

Your local Forest Fire Warden, Fire Department, and the State of New Hampshire Division of Forests & Lands work collaboratively to reduce the risk and frequency of wildland fires in New Hampshire. To help us assist you, please contact your local Forest Fire Warden or Fire Department to determine if a permit is required before doing ANY outside burning. Under State law (RSA 227-L:17) a fire permit is required for all outside burning unless the ground is completely covered with snow. The New Hampshire Department of Environmental Services also prohibits the open burning of household waste. Citizens are encouraged to contact the local fire department or DES at 1-800-498-6868 or www.des.state.nh.us for more information. Safe open burning requires diligence and responsibility. Help us to protect New Hampshire's forest resources. For more information please contact the Division of Forests & Lands at (603) 271-2214, or online at www.nhdf.org.

Fire activity was very busy during the spring of the 2007, particularly late April into early May. As the forests and fields greened up in later May the fire danger decreased. However, a very dry late summer created very high fire danger again from August into September, with fire danger reaching very high on Labor Day weekend. Even with the dry conditions, the acreage burned was less than half that of 2006. The largest forest fire during the 2007 season burned approximately 26 acres on the side of Wantastiquet Mountain in Chesterfield during the month of May. Our statewide system of 16 fire lookout towers is credited with keeping most fires small and saving several structures this season due to their quick and accurate spotting capabilities. Many homes in New Hampshire are located in the wildland urban interface, which is the area where homes and flammable wildland fuels intermix. Several of the fires during the 2007 season threatened structures, a constant reminder that forest fires burn more than just trees. Homeowners should take measures to prevent a wildland fire from spreading to their home. Precautions include keeping your roof and gutters clear of leaves and pine needles, and maintaining adequate green space around your home free of flammable materials. Additional information and homeowner recommendations are available at www.firewise.org. Please help Smokey Bear, your local fire department and the state's Forest Rangers by being fire wise and fire safe!

HEALTH OFFICER ANNUAL REPORT 2007

The year 2007 proved to be an interesting one for the Health Department. Deputy Officers Bill Willey and Ted Sutton finished the project of re-writing the sewer ordinance and worked on bringing all restaurants into compliance. We also monitor the Department of Environmental Service's correspondence with FCI and Franconia Investment Properties.

I responded to a variety of calls this year, the most often regarding trash. There were a number of Dumpsters that were not animal-proof and were being visited on a regular basis by bears. This is in violation of the wild animal ordinance, and fines were collected. Trash was also reported outside of a number of homes, further encouraging bear visits, as did grease spills left unattended. Please remember to place trash in a metal, animal-proof container. The bear doesn't know better, you do.

Other calls involved coordinating restaurant inspections, performing day care inspections, and several interior living inspections; the last resulting in condemnation of two homes, and working with owners on several more. Please remember that if you cannot care for an animal, it is better to find it another home than to have to find one for yourself too.

Numerous classes and conferences were attended this year, learning everything from how to identify dangerous spills to how much we are, or aren't, at risk for EEE and West Nile Virus. Please do get in the habit of preventing any mosquito bites by wearing long sleeves and bug deterrent, even though we are not at as much risk as the southern part of the state. We also participated in meetings regarding how to respond to an emergency management situation, both in Lincoln and in our general region, for both medical and wildfire issues.

Finally, we are working also on promoting wellness. We held a walking challenge and promoted flu shots for all Town employees. We also are promoting Breathe New Hampshire, going smoke free in New Hampshire's restaurants, and with projects like the Village Core's trail system and our new Energy and Water Conservation Committee, we continue along that path. Get out there and do something healthy!

This year the library has seen a growth in the number of visitors to the library. Use of our wireless Internet service has increased greatly. The Board of Trustees continues to focus on the upcoming library addition; we have hired an architect to design the addition, which will include a meeting room for programming and activities.

Our fabulous Friends of Lincoln Library group continues to hold events and fundraisers for the library. This year, they purchased a subscription to DOWNLOADABLE AUDIOBOOKS and MP3 players to listen to them on. Come into the library to find out more about this service. They also purchased an ACCUCUT Machine, and dies for library visitors to use for cutting paper or cloth letters perfectly. I want to thank all of the members of this group for all of their hard work and support throughout the year.

Our Children's Summer Reading program this year was a success. One of our most well attended programs was a HARRY POTTER MIDNIGHT PARTY. We opened the library at 10pm on the eve of the release of the final installment of Harry Potter, and had a costume party, activities and food for all that attended. At the stroke of midnight, 70 copies of the book arrived at the library by escort of an armed police officer from the Lincoln Police Department. Those in attendance were able to purchase the book and be one of the first to read it. Adults and children alike were excited to get their hands on the book.

Throughout the year we receive many wonderful comments on our beautiful, warm and friendly library, which all of us can take pride in. Visit our site at <http://lincoln.lib.nh.us> to see the many activities available here.

I wish to thank the community for their continued commitment in support of the library.

LINCOLN-WOODSTOCK RECREATION DEPARTMENT

The Lincoln – Woodstock Recreation Department would like to thank everyone that volunteered their time during 2007.

This year's projects for the Recreation Department included:

- The completion of the community ball field. The Lincoln Public Works crew, Jim Welch and Sabourn Electric, installed the scoreboard that was donated by Polimeno Realty. The bases were laid out and installed by Andre Desjardins.
- Phase II of renovations and expansion were completed to the Father Roger Bilodeau Community Building. This included a new parking area, a new entrance and walkways, a new heating system, a new hot water heater, and the final needed classroom addition. The project was partially funded from a USDA rural facilities grant, a donation of labor and equipment from Elliott Custom Homes, LLC, a donation of services to engineer the parking area from Chris Mulleavey of Hoyle Tanner Associates, a donation of labor to design the new entrance walkway and ramp from Sabourn Surveying, a donation of labor to paint the exterior of the building by Kevin O'Brien, as well as work performed by the Lincoln Public Works Department and Lefebvre Construction.
- New lights on new pole on main slope at the Kanc Ski Area (David Dovholuk, Tom Dovholuk, NME & Sons (Jeff and Nancy Ingalls), Conn Brothers Construction, NH Electric Coop, and Harrington Electric).
- Hosted Cal Ripken State 12 year old baseball tournament for a week in July (Andre, Faith, Will & Joe Desjardins; Meagan Shamberger; Aimee Polimeno, Nate King, Shannon O'Connor; Hilary Lamontagne; White Mountain League; Lin-Wood School, Joe Bossie; David Beaudin; and Aaron Loukes).
- Shannon O'Connor donated her time and skills to offer a gymnastics program for K-5th graders this fall! Thanks also to Alexandria Long and Chelsea Carter for helping with this.
- In 2007 we divided the summer camp into a "Kanc Kamp" for ages 5-9, and an "Adventure Camp" for ages 10-14. Thanks to Teneil Rineer and her staff, and Kat Murphy and her staff for taking on his positive change.
- In 2007 we partnered with ADAPT to provide an "Outing club" for middle schoolers, two days a week.
- The Afterschool Program at the Community Center received a grant from PlusTimeNH for the purchase of a new Dance Dance Revolution game system, pedometers, rollerblades, and life jackets. They also donated 4 computer systems for this program!

Thank you all for your efforts to increase the safety and quality of these areas!

In addition to these projects, this year the Recreation Department also offered 32 programs and 12 events for all ages of the Lincoln – Woodstock Community. This includes senior citizen trips to Pickety Place Gardens in Mason; Cabot Cheese Tour, Montpelier, VT; Cold Hollow Cider Mill, Waterbury Center, VT; The Fryeburg Fair, and Christmas Shopping in Salem. This also includes the Adult ski night program that has grown in popularity each year, and is run by Jack Bartlett and David Dovholuk. We have so many volunteers that coach, run programs, chaperone, transport

kids to games, donate prizes for events, and donate facilities for programs. Thank you all for your continued support in making these programs and events so beneficial for this community.

In 2007 we had 5420 skiers at the Kanc ski area, 124 Kanc Camp participants, 77 Adventure Camp participants; 59 Basketball players, 116 baseball, softball, farm league and t-ball players, 81 soccer players, 26 who took swimming lessons each session, 34 golf lesson students, 14 Afterschool participants, 28 Outing Club participants, 14 dance program participants, 24 gymnastics participants, and 13 Karate participants. The usage breakdown was 3352 participants from Lincoln (or 53%) and 2508 participants from Woodstock (or 41%), and 392 from out of town (or 6%).

As we begin 2008 I hope that more people will take the opportunity to enjoy these programs and events, and the great area that we live in. I hope that you can find the time to recreate either by yourself or with your loved ones. If you would like to see something offered, or if you are thinking about volunteering, contact me today and we will find something for you to get involved in!

SOLID WASTE FACILITY ANNUAL REPORT 2007

During 2007 we experienced some increases in the disposal of Municipal Solid Waste and Construction & Demolition. The reason for the increase in Construction & Demolition disposal was due to FREE disposal all owed by the Co-Administrators during last spring's high winds that caused so much damage.

The big news is that we had our best year ever with respect to recycling revenue, and collected some \$32,387 in recycling revenue. This was attributed to the high market prices for which we were able to sell our recyclable material.

During 2008 we will again be holding a Household Hazardous Waste Day, hopefully in the fall. Paint collections will be starting up in May, and remember that we only take hazardous waste from household, not commercial, facilities.

Starting in January, we contracted with a company to remove both the Kelley and the Basic incinerator units that we have been trying to dispose of for at least 9 years. This should give us more room to store recycled materials until market prices dictate disposal would be best.

The Solid Waste Board also started a study through North Country Council to look at the way that the solid waste facility operates and disposes of its solid waste and recyclable material. You should be receiving a questionnaire soon. Please fill it out and return it so that we can see if you have any concerns or ideas that may help us in disposal of your solid waste.

In September of 2008 our new Solid waste disposal contract will be in effect and it will increase the cost to dispose of our Municipal Solid Waste or household waste significantly. So before you just throw any recyclable materials into your household trash, make sure that they cannot be recycled first, as it costs us all more to dispose of Municipal Solid Waste than it does recyclable materials.

I would also like to welcome Todd Webster, our newest employee, and thank Linwood Pierce for a job well done. This will be the 9th consecutive year that there has not been any lost time due to an accident at the facility. As always, should you have any suggestions or comments please, do not hesitate to stop by and talk to me.

Totals	\$18,035	\$18,379	\$21,042	\$12,175	\$13,003

In 2007, we saw a change in how our welfare dollars were spent. Due to the rising cost of heat, we found that heat/fuel and electricity took up more of our budget while the rental assistance figure decreased. We have also been helping recipients with some medical co-pays to help them through challenges due to illness or injury. Our office is happy to report that we also received a repayment this year of \$150 and are expecting some repayments of funds in 2008.

When determining eligibility for financial assistance, we work closely with the applicant and agencies such as Tri-County Community Action, Department of Health and Human Services and Social Security Administration to determine if the applicant qualifies for funding from other sources, as well as trying to advise him/her what other income options or cost-cutting measures might be available to them.

TOWN CLERK'S REPORT ANNUAL REPORT 2007

Motor Vehicle Update

On June 18, 2007 House Bill 448 became effective allowing a person to renew a vehicle registration during the four (4) months prior to its expiration month without verifying the owner's absence from the state.

Driver's Licenses can now be renewed up to 60 days prior to expiration.

Dog Licensing Information

REQUIREMENTS – RSA 466:1

Every owner of a dog that is at least four months old must license the dog each year. The town clerk will provide the license tag, which shall include the name of the municipality, the year the license was issued and a registration number. The Town Clerk shall issue no license until the person registering the dog produces a certificate of rabies.

FEES – RSA 466:4

The dog licensing year runs from May 1st to April 30th and according to RSA 466:1, the license is effective for that time period regardless of when it is obtained.

- \$6.50 for each spayed or neutered dog. (Will need certificate of alteration.)
- \$9.00 for each dog that has not been spayed or neutered.
- \$2.00 for dog owners 65 or over for the first dog, but the regular fee shall apply to any additional dog.

No fee shall be required for the registration and licensing of a seeing-eye dog used by a blind person, or a hearing dog used by a deaf person.

An additional \$1 may be charged for each month or any part of a month that the license fee remains unpaid after May 30th.

Fees could be subject to change.

Town Clerk Fees

All certified copies of a birth, death, or marriage will require photo identification along with the application.

- \$12.00 for the first certified copy
- \$8.00 for each subsequent copy (purchased at the same time as the first)
- \$45.00 for a marriage license or civil union
- \$150.00 for a single cemetery lot
- \$300.00 for a double cemetery lot
- \$600.00 for a lot of four

MINUTES OF TOWN MEETING - 2007

Article 20 was defeated by a stand up vote Yes – 21 No - 27

Article 21. To transact any other business that may legally come before the meeting.

Moderator O.J. Robinson took this time to compliment many leaders who dedicated their time and effort, not just to tonight's meeting but also for the whole past year. Robinson thanked the Selectmen, Town Manager and the Budget Committee for putting together the budget we just voted on and the election officials who worked all day. He also commented that this year's Town Report was dedicated to the Town's Fire Department in appreciation for all of their many years of hard work and dedication. Moderator Robinson also took this opportunity to say thank you to all the people who came out tonight and made their voices and concerns known and voted.

Moderator O.J. Robinson asked if there were any other business to be brought before the Town tonight. There being none; Robinson made a motion that the meeting be adjourned. David Thompson and Paul Beaudin Sr. seconded the motion. The annual town meeting adjourned at 9:17pm.

I, hereby, certify that the above return of the Annual Town Meeting of March 13, 2007 is true and correct to the best of my knowledge.

Respectfully submitted,

Susan Whitman

THE POLLS WILL BE OPEN FROM 10:00 AM TO 6:00 PM

To the inhabitants of the Town of Lincoln, in the County of Grafton, and State of New Hampshire, qualified to vote in town affairs: You are hereby notified to meet at the Lin-Wood Public School, in said Lincoln on Tuesday, the eleventh (11th) day of March, next at 10:00 of the clock in the forenoon until 6:00 p.m. for the casting of ballots; and at 7:30 p.m. in the same day to act upon the following subjects: (The polls will not close earlier than six o'clock in the evening.)

ARTICLES ONE AND TWO WILL APPEAR ON THE OFFICIAL BALLOT AND WILL BE VOTED ON FROM 10 A.M. to 6 P.M.

Article 1. To choose all necessary Town Officers for the year ensuing as follows: Selectman, Town Clerk, Town Moderator, Town Treasurer, Library Trustee, Cemetery Trustee, Trustee of Trust Funds, and Budget Committee.

Article 2. To see if the Town will vote to adopt Amendment No. 1 to the Lincoln Land Use Plan Ordinance, as proposed by the Planning Board, as follows: The following sentence would be added to Article VI, Section C (Cluster Developments), Subsection 3.B (Specific Cluster Development Regulations): "However, the Planning Board may not approve any cluster development which is less than 15,000 square feet per unit." The Planning Board unanimously recommends approval of this amendment.

Article 3. To see if the Town will vote to adopt the Amendment No. 2 to the Lincoln Land Use Plan Ordinance, as proposed by the Planning Board, as follows: The Town's Sign Ordinance, which has been revised, will be added to the Land Use Plan Ordinance in Article V as a new section, Section K. Due to its length, the revised Sign Ordinance is not reprinted here. A copy of the complete text of the revised Sign Ordinance is on file and available for review at the Town Office. The Board of Selectmen and the Planning Board recommend approval of this amendment.

THE FOLLOWING ARTICLES WILL BE TAKEN UP DURING THE BUSINESS MEETING BEGINNING AT 7:30 P.M.

Article 4. To see if the Town will vote to raise and appropriate the sum of three million, seven hundred eighty six thousand, one hundred and eighty-three dollars (\$3,786,183) for the purposes of **General Government; Public Safety; Highways; Sanitation; Water Treatment; Health, Welfare, Culture and Recreation; and Long and Short Term Debt including Interest** for the ensuing year, exclusive of all special and individual warrant articles. (The selectmen and the budget committee recommend this appropriation.)

Article 16. To see if the Town will vote to raise and appropriate the sum of twenty thousand dollars (\$20,000) to purchase (and replace) a van for the Recreation Department.

Article 17. To see if the Town will vote to approve the cost items included in the collective bargaining agreement reached between the Town and the Teamsters Local #633, which represents the dispatchers and sworn police officers of the Town. Said agreement calls for increases in salary and benefit costs, estimated as follows, assuming present staffing levels were to remain unchanged:

2008 Estimated increase over 2007	\$ 3,657
2009 Estimated increase over 2008	\$29,547
2010 Estimated increase over 2009	\$31,388

and further, to raise and appropriate the sum of three thousand six hundred and fifty seven dollars (\$3,657) for the current fiscal year, such sum representing the additional costs attributable to the increase in salaries and benefits over those of the appropriation at current staffing levels paid in the prior fiscal year. (The Budget Committee and the Board of Selectmen recommend this appropriation.)

Article 18. Shall the Town, if Article 17 is defeated, authorize the governing body (Board of Selectmen) to call one special meeting, at its option, to address Article 17 cost items only?

Article 19. To see if the Town will vote to raise and appropriate seven thousand one hundred and three dollars (\$7,103) for the second year's payment on a three year lease agreement for twenty four thousand dollars (\$24,000) for the purpose of leasing a new cruiser for the Police Department as approved at the 2006 Town Meeting. This lease agreement contains an escape clause.

Article 20. To see if the Town will vote to raise and appropriate seventeen thousand six hundred (\$17,600) into the **Police Department Equipment Capital Reserve Fund** (created in 1995) for computer server upgrades. (The selectmen and the budget committee recommend this appropriation.)

TOWN OF LINCOLN ANNUAL MEETING WARRANT

Article 21. To see if the Town will vote to discontinue **the White Water Plant Removal Capital Reserve Fund** (re-established in 2003). Said funds, with accumulated interest to date of withdrawal, are to be transferred to the Town's general fund. Note: This article, if approved, would only take effect upon the successful closing of the sale of the land known as Map 16, Lot 312. (Majority vote required.)

Article 22. To see if the Town will vote to establish an expendable trust fund under RSA 31:19-a, to be known as the **Village Center and Riverfront Park Expendable Trust Fund**, for the purpose of creating a trail system and riverfront park in the Village Center, and to raise and appropriate the sum of eleven thousand one hundred and five dollars (\$11,105) to be placed in this fund, with said funds to come from the unreserved fund balance. And furthermore to name the Selectmen as agents to expend from this fund. (This amount represents the funds from the dissolution of the White Water Plant Removal Capital Reserve Fund, with no amount to be raised by taxation.) (The selectmen and the budget committee recommend this appropriation.) **Note: This article is contingent on the passage of article 21.** (Majority vote required.)

Article 23. To see if the town will vote to raise and appropriate the sum of ten thousand dollars (\$10,000) to be placed in the **Property & Building Maintenance Expendable Trust Fund** (created in 2007). (The selectmen and the budget committee recommend this appropriation.)

Article 24. To see if the Town will vote to discontinue the **Memorial Park Monument Capital Trust Fund**. Said funds, with accumulated interest to date of withdrawal, are to be transferred to the Town's general fund.

Article 25. To see if the Town will vote to raise and appropriate the sum of thirty thousand dollars (\$30,000) to be placed into the **Roland Dubois Settlement Wastewater Improvement Capital Reserve Fund** (created in 2004,) the entire amount to be accepted from Loon Mountain Recreation Corp., with no amount to be raised by taxation. (Both the Budget Committee and the Board of Selectmen recommend this appropriation.) (Note: The Roland Dubois settlement calls for additional payments of \$30,000 per year for 8 additional years, and it is the Selectmen's intent to insert additional warrant articles each year. The Selectmen were appointed as agents in 2004 to expend this fund for capital improvements to the Town's sewage treatment required by the Clean Water Act.)

*Executive Councilor
District One*

Report to the People of District One By Ray Burton, Councilor District One

It is a pleasure to serve this large northern district of 98 towns, 4 cities, and 5 counties with a population of 247,000 people. The Executive Council is at the top of your Executive Branch of NH State Government. The Governor and Executive Council appoint 352 Commissions and Directors who administer NH law and budget as prescribed by the NH House and Senate.

2008 is the year to keep an eye on and follow the progress of the NH Transportation Plan. The recommended projects in the highway and bridge plan can be accomplished with existing revenue from the state gasoline tax, bonds and matching federal funds. The Executive Council held public hearings on the projects throughout the state and forwarded their recommendations to Governor Lynch. Governor Lynch will review our recommendations and then submit his recommended plan to the NH House and Senate by January 15th, 2008. Without any new revenues for additional projects we will be lucky to maintain the existing state highway and bridge system. If more work is desired than new revenues will have to be voted by the Members of the House and Senate and signed by the Governor. Contact your local legislators- House and Senate. Find them by going to www.nh.gov

This large northern district needs more people on state mandated volunteer boards and commissions. Send your letter of interest and resume to my office, or to Kathy Goode, Director of Appointments/Liaison to the Council, Governor's Office, State House, 107 North Main Street, Concord, NH 03301. Tel. (603) 271-2121. To find out what openings are available and to see a list of boards, visit the NH Secretary of State website at www.sos.nh.gov/redbook/index/htm.

I have available from my office informational items about the NH Executive Council, NH Constitution, NH Tourist Map, 2007 Consumer Handbook, and District Maps. IF you would like to receive my Monday morning report by e-mail please send an e-mail address to rburton@nh.gov.

It is an honor to continue to serve you in my now 30 years as a public servant. Contact my office anytime about your ideas, concerns and problems with state government. I respond to all inquiries and challenges.

NORTH COUNTRY HOME HEALTH AND HOSPICE

North Country Home Health & Hospice Agency has been meeting the home health and hospice needs of the North Country since 1971.

North Country Home Health & Hospice Agency provides skilled services such as nurses, therapist, home health aides, medical social workers, and homemakers. Under our hospice program we also pay for medications for symptom relief, medical supplies and equipment, short term hospitalization and in-patient respite care, counseling and pastoral support. Our Compassionate Care program provides limited amounts of free skilled care to those living with a life-limiting illness who are not eligible for traditional hospice benefits. In January 2007, we added hospice volunteer services to improve our continuum of care by creating an even stronger program of hospice and palliative care for residents. In 2007, we traveled 230,447 miles to provide 25,781 visits to the residents in our 21-Town service area.

North Country Home Health and Hospice relies on Town support and individual donations to help underwrite the cost of providing home health and hospice care to residents who are uninsured or underinsured. The Board of Directors and Staff of North Country Home Health & Hospice are grateful for your continued support of our work in this community and look forward to working with you to meet the home care and hospice needs of the residents of Lincoln.

ADOLESCENT DRUG & ALCOHOL PREVENTION

Town of Lincoln
2007 Annual Report

Adolescent Drug & Alcohol Prevention Tools, Inc.

The Board of Directors of ADAPT, Inc., extends sincere thanks to the Town of Lincoln for its generous financial support through the years.

ADAPT (Adolescent Drug & Alcohol Prevention Tools) is a non-profit organization dedicated to the prevention of substance use and abuse among area youth under 21 and their families. One of our primary goals is to provide students with recreational as well as educational opportunities which serve as positive, healthy alternatives to self-destructive behavior. The range of services we provide and the number of young people we connect with has grown dramatically in the past several years.

On a weekly basis, we serve approximately 75 youth from the town of Lincoln. We strive to offer an ever expanding, diverse range of innovative programs at little to no cost to participants.

ADAPT's services include:

- After school programs at Lin-Wood Public School for students in grades 1-12 featuring age appropriate evidence based ATOD prevention curriculum.
- A Student Assistance Program that includes youth leadership/mentoring; parent consultation; group & individual consultation; education and crisis prevention, community service, ATOD screening and assessment as well as Alcohol Tobacco and Other Drug awareness.
- Smoking Cessation classes for students wishing to quit using tobacco.
- High School Outing Club – that includes overnight backpacking trips, white river rafting excursions, kayaking on the Pemi River, bowling, movies and indoor rock climbing at Natural Highs.
- Reconnecting Youth-A peer group approach to building life skills taught daily at Lin-Wood Public School
- Project D.J. Youth entrepreneurship program
- SADD (Students Against Destructive Decisions) – Middle and High School Chem-Free groups have been formed at Thornton Central School, Lin-Wood School, and Plymouth Regional High School. This winter ADAPT will facilitate a three-day conference that will focus on leadership skills and the benefits of making healthy choices. It will give these youth the opportunity to come together with students from other schools to share ideas and create action plans for future programs. The goal of this conference is to empower these youth to lead and promote the benefits of a healthy lifestyle.
- Periodic “lock-ins” as well as other prevention-themed events held at Lin-Wood Public School.
- Red Ribbon Week activities featuring alcohol, tobacco and other drug prevention themed events.
- Combined Chem-Free graduation party for students from Lin-Wood and Plymouth Regional High Schools.
- Annual guest speakers who are nationally recognized in the prevention field, such as Dr. Matt Bellace and Ty Sells.
- Public Service Announcements

- Community Service Projects such as winter clothing drive, and Toys for Tots. This year our ADAPT students also volunteered to serve as elves for the Polar Express holiday event in Lincoln.
- Under 21 “Prime for Life” risk reduction curriculum
- Family Night at Natural Highs Indoor Rock Climbing featuring free climbing for area families.
- Summer Adventure for area high school students

If you would like further information about our programs visit us on the web at www.adaptonline.org or contact our director, Sean O’Brien at 236-9227.

AMERICAN RED CROSS/UNITED WAY

The Gift of Preparedness

It's been a year of change and growth for your local Red Cross chapter. An obvious change is our name, now the Granite Chapter. We have also begun plans for a branch office in Berlin, similar to our fully functioning branch at the Belknap Mall in Belmont.

This year we took on some additional responsibilities as the Red Cross regional chapter for New Hampshire. Through this new structure, our chapter will facilitate communication among NH chapters to better serve the residents of our state.

Last year our disaster volunteers provided families with essential supplies after several house fires, including the tragedies in Berlin. Other disasters that we responded to included the floods from the April Nor'easter. When that event became a national disaster, Red Cross volunteers from chapters in other states came to join us in the major effort of relief and recovery in our state.

We were able to do all of this because of the dedication and skills of our remarkable volunteers. Hundreds of volunteers worked with chapter staff during the year to answer the call to serve people when they needed it most. To all of them, we say a heartfelt thank you for a job well done!

Our financial contributors and blood donors have shared their gifts of dollars and blood to make sure we had the resources needed every day of the year. We would not have been ready to respond when we were called, and our hospitals would not have had the blood they needed, without the compassion and generosity of these friends. Again, a warm thank-you!

We started some new programs this year with a focus on preparing New Hampshire

residents and communities for future disasters. Disasters disrupt lives, interfere with employment, separate families, and drain financial and emotional resources. Our volunteers and staff take very seriously our role to reduce the emotional toll of disasters by helping your family, community and workplace get prepared in advance.

To help with this work **PrepareNH** is designed to provide disaster preparedness information and education to our communities. This information is available through our website (<http://www.concord-redcross.org/>), newsletters and other publications. Training through our health and safety classes gives people of all ages the skills and confidence to respond to life-threatening emergencies.

As part of **PrepareNH** we offer another program, **Masters of Disasters**,[®] in many communities. This series for children in grades K-8 and 9-12 covers topics on life-saving safety and injury prevention, and has received national acclaim from educators in schools and youth organizations.

Watch for more information on **PrepareNH** and the **Masters of Disaster** through our website (www.concord-redcross.org), or call us at 1-800-464-6692.

Being prepared is a life-saving gift. We're here to help you give that gift to your family and community.

Chair, Board of Directors

MISSION OF THE AMERICAN RED CROSS

The American Red Cross is a humanitarian organization, led by volunteers, that provides relief to victims of disasters and helps people prevent, prepare for, and respond to emergencies. It does this through services that are consistent with its congressional charter and the fundamental principles of the International Red Cross and the Red Crescent Movement.

“The American Red Cross depends on the generosity of the American public.”

To donate to your Red Cross chapter by credit card, call 1-800-464-6692, or mail a check made out to the American Red Cross to the address below.

Thank you!

I would like to thank all of you for your support of the North Country Council (NCC) this past year. We have made a number of positive changes and completed a number of projects throughout the region. Once again, we reaffirmed the Council's commitment to serve community and regional needs.

During the past year, we have continued to deliver planning services throughout the region as you will see in the enclosed report. We have and will continue to adjust our capacities to respond to the needs of the communities, which will be evident in the programs being introduced in the coming years. Our strong relationship with the Department of Commerce and the Economic Development Administration (EDA) continues and has brought funding and project development into the region. The Sustainable Economic Initiative and the Coos Economic Adjustment Strategy continue to be major programs funded by EDA. Our Community Outreach program, targeted at helping our planning boards in the difficult tasks of managing the planning activities in their communities, is ongoing. NCC has been awarded an additional grant from EPA for Brownfields assessments and will be looking for sites and communities where these assessments can be utilized. These programs as well as all the traditional programs in master planning, solid waste management, grant writing, natural resource planning, hazardous mitigation planning and transportation planning will continue to be the focus of North Country Council. If you would like further information on any of these programs, please do not hesitate to call us.

Please take the time to look over this annual report and give us some feedback as to where you think the Council could improve and how we might better serve our communities.

Again, thank you for all of your support of the Council. The Council is here to serve you and to be of service to your community. It is your organization. Our staff and Board are committed to responding to community need. If there is a project or a need in your town, please call us. We are dedicated to both supporting our individual towns and promoting regional unity in the North Country.

White Mountain Mental Health and Common Ground Director's Report

Town of Lincoln

As you sit on those folding chairs or bleachers at town meeting and listen to the warrant articles being discussed, you may wonder how the money you appropriate to White Mountain Mental Health/Common Ground is used in your town. This report is one means of informing you, the taxpayer, about what is done with this funding.

First, in general terms: the impact of your support is seen in children who become more successful in school and better prepared for adulthood, in adults who resume functioning as employees and parents, in elders who are able to stay independent and productive and in families with a developmentally disabled member who are able to move forward with their own lives, knowing that there is support outside of the family circle for their loved one. People who receive life-saving medical services are eager to tell their friends and family about the success of their care. You have seen “cards of thanks” in the local papers, naming the physicians, nurses, family and friends who came to the aid of a grateful patient. These thanks are well deserved! But...have you ever seen a similar tribute to mental health, substance abuse or developmental disability professionals who saved a life by being available to intervene in a life-threatening crisis of a different type? Chances are that your family member or neighbor will not advertise the fact that they have needed and used our services; life's challenges are often kept private. Having diabetes is much more acceptable than having schizophrenia, although both are chronic illnesses that can be managed through treatment, lifestyle education and support. We still struggle with the stigma attached to both behavioral health and developmental disability, but who among us has not been impacted by one or both?

Support for our services is an investment in the health and productivity of your Town. In the North Country, unlike many parts of the State and Country, services continue to be available to ALL residents, not just those who can pay or those with a severe, biologic mental illness. This is because our towns and other supporters have recognized that unaddressed mental health and developmental issues have a tremendous negative “ripple effect” on the family, the economy and the whole community.

Although it is impossible to list all that we do, our core services include:

- ♣ 24 hour crisis intervention and assessment service for mental health emergencies
- ♣ Individual, marriage and family counseling, offered by highly trained mental health professionals with a variety of specialties
- ♣ Medication consultations to local physicians by Board certified psychiatrists
- ♣ “Full-life” supports for persons with serious and persistent mental illness, including housing, vocational and case management services

NORTHERN HUMAN SERVICES

- ♣ Individualized home placements for more than fifty persons with developmental disabilities
- ♣ Life-enriching jobs and social connections for people with mental illness and developmental disabilities
- ♣ Substance abuse prevention and treatment by our staff of licensed alcohol and drug abuse counselors

Service Statistics Highlights:

- ♣ **In 2007, 47 residents of the town of Lincoln received 338_ hours of outpatient mental health or substance abuse treatment services at a discounted rate. Our ability to continue to offer these services on a sliding-fee scale is dependent upon the support of our communities.**
- ♣ **100 families in our area received extensive assistance in supporting a person with a developmental disability. In many cases, the supports include “full-life” around the clock services.**

Thank you for your continued support.

2007 Report of Linwood Ambulance Service

To the citizens of Woodstock and Lincoln:

2007 was another exciting year for Linwood Ambulance Service. We completed the first full year in our new station. It has proven to be a busy place and a wonderful asset. An EMT Basic course was given in the new classroom. Then thanks to a grant from the State of New Hampshire Bureau of EMS, advanced level training was provided at a paramedic level. Four of our paramedics also received one-on-one mentoring with this grant; results of this program will be described in national journals. It is hoped that this kind of hands-on teaching can be used in other rural settings. Citizen CPR classes are given regularly and on request.

Our call volume continues to grow. In 2007, the ambulance was dispatched more than 600 times. Near 400 patients were taken to hospitals in Plymouth (345), Littleton (38), Woodsville (1), and Lebanon (3). The Dartmouth-Hitchcock Air Rescue Team responded to our community numerous times. Many times this year the ambulance was able to treat and release patients—thereby saving them thousands of dollars in hospital costs.

This past year, we also provided nearly \$150,000 in free care or in mandated Medicare and Medicaid reductions. There are many seniors and others who need assistance in paying their bills. With the support of the voters of the community, we are able to provide reduced costs for many of our citizens. We are most appreciative of the financial contribution that the Towns make to support our operations.

Sixty times in 2007, both our ambulances were in service at the same time. With the number of new homes and business in the area, we anticipate that multiple simultaneous calls will become the norm. In the late fall, we ordered another new ambulance (\$137,000). It is scheduled to arrive on February 14th. The Village of Loon Mountain Tennis Tournament generated more than one-third of the cost. We thank all who donated. For the time being, we will maintain three ambulances. The new station was built in anticipation of this growth.

The finishing of the second floor of our new station has progressed with the work and donation of Eugene Davis and his father. We hope this year to be able to carpet the area and finish the bathrooms. We hope to pave our driveways and parking areas. The memorial bricks arrived in October, and we will be installing the initial brick walkway after snow melts. Additional bricks can be ordered.

We also hope to upgrade some of our equipment. These are ambitious plans, but with the on-going support of the communities, we remain confident that they can be accomplished.

We would be remiss if we did not thank our volunteer crews who are willing to respond at any hour. Our director of EMS, Stacy Bossie, deserves recognition for leading us to this point. Our board of directors—made up of citizens from the two towns—has provided guidance, courage, and vision. We thank them all.

Yours truly,

Kenneth Chapman

UNH COOPERATIVE EXTENSION

University of New Hampshire Cooperative Extension, Grafton County, has been serving the people of our county in the following ways:

The Nutrition Connections program, coordinated by Robin Peters, reached over 100 families in their adult programs and 200 children in their youth programs. The children were from various Head Start programs; local elementary schools; Whole Village Family Resource Center's Child Care Center; the 21st Century After School Program; North Country Academy Charter School and the Circle Program's summer camp.

The Family and Consumer Resources program Educator, Deb Maes, has worked with a new collaboration in Plymouth that allowed limited resource families to participate in a five-week Making Money Work for You program. In addition, over 400 food service workers participated in either a two-day food safety class or an intensive one day class as part of the Family and Consumer Resources program. Of those attending, over 83% scored 75% or higher on the National Restaurant Association's exam and were certified for five years based on their food safety knowledge. Deb also taught participants in the Grafton County Academy Program nutrition and food budgeting tips, money management, parent education and people-skills as part of their education prior to graduating from the program.

Nutrient management in the production of forages, vegetables and fruits continues to be a major focus of the Agricultural Resources program. Nutrient Management Plans on more than 4000 acres of corn and forages were reviewed and updated by Tom Buob, Extension Educator. Through the use of the UNHCE Soil Testing Program farmers were encouraged to maximize the utilization of their on-farm resources to minimize costs and improve profits. Forty producers submitted 160 samples in this process.

Agricultural Resources programs continued to expand efforts with vegetable farmers to incorporate more environmentally sound management practices into their overall management schemes, including: drip irrigation, individual row fertigation, and the introduction of disease resistant varieties to reduce pesticide use. The use of floating row covers was promoted and demonstrated to reduce the use of insecticides and encourage earlier production of various vegetable crops. The vegetable produce from the demonstration plots (several tons of tomatoes, squash, cucumbers, etc) was donated to various Senior Centers in the Upper Valley.

The 4-H Youth Development program has over 300 members and 110 leaders supporting 23 traditional clubs. Volunteers in the 4-H program provided over 4,000 hours of service in 2006-2007 to support the educational objectives of the program. A 4-H Afterschool group was formed in Littleton. In addition, Kathy Jablonski, 4-H Youth Development Educator, has provided assistance to four community's and their after school programs. One program in Littleton, Project REACH, received a JC Penney 4-H Afterschool Grant. Consultation for grants has been done with several other programs. Statewide training in positive youth development theory has been presented at Plustime, 21st Century and Extension sponsored conferences.

This year the Master Gardener and the 4-H horticulture programs have been supported by a program associate. The approximately 25 MG's have given hundreds of hours of support to the Grafton County communities. Their showpiece project, the perennial gardens at the county complex, has been coordinating with the County Commissioners. In addition, Dana Karuza Tulp, Volunteer Management Coordinator, coordinated the 4-H summer gardening program for 60 youth and their leaders. A series of 10 workshops, open to 4-Hers and the general public, were held on a variety of horticultural topics throughout the spring and summer months.

UNH COOPERATIVE EXTENSION (CONT.)

Michal Lunak, Extension Dairy Specialist, has also been working with local dairy producers on herd management, farm transfer planning, and quality milk production. He also facilitated with a series of bio-security workshops that were co-sponsored by UNH Cooperative Extension and the New Hampshire State Veterinarian. In all, 77 agricultural professionals and 72 producers, youth, and general public participated.

Northam Parr, Forestry Resources Educator, spent considerable time assessing the damage from the spring storms and connecting wood lot owners with the correct agencies and providers. The Tree Farm program continues to be supported, including the New Hampshire Tree Farm Field Day. In addition, Northam has worked on sustainable forestry plans with landowners and has facilitated with certified logging professional workshops.

Northam Parr and Michal Lunak serve on the county farm committee to help to develop a sustainability plan for the county farmlands, woodlands, and dairy herd. Deb Maes, Nory Parr and Robin Peters have assisted the communities of Landaff, Rumney and Canaan in their Community Profile work and follow up activities.

UNHCE continues to provide New Hampshire's citizens with research based education, information and technical assistance, enhancing their abilities to make informed decisions strengthening youth, families and communities while sustaining natural resources and improving the economy. Funded through the federal, state and county government and competitive grants, educational programs are designed to respond to the local needs of citizens through direction and support of the elected volunteer Extension Advisory Council.

For information, please contact our office Monday through Friday, 8:00 a.m. to 4:00 p.m. by calling: 603-787-6944 or emailing: grafton@ceunh.unh.edu. You will find current information on our website: www.extension.unh.edu

INDEPENDENT AUDITOR'S REPORT

To the Board of Selectmen
Town of Lincoln, New Hampshire

We have audited the accompanying financial statements of the governmental activities and each major fund of the Town of Lincoln, New Hampshire (the Town) as of and for the year ended December 31, 2006, which collectively comprise the Town's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Town of Lincoln, New Hampshire's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Town of Lincoln, New Hampshire as of December 31, 2006 and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated July 17, 2007 on our consideration of the Town of Lincoln, New Hampshire's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information on pages i-iv and 18-19, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

TOWN OF LINCOLN, NEW HAMPSHIRE
MANAGEMENT'S DISCUSSION AND ANALYSIS
Year Ending December 31, 2006 and 2005

Presented herewith please find the Management Discussion & Analysis Report for the Town of Lincoln for the year ending December 31, 2006 and 2005. The responsibility for accuracy of the data, the completeness and fairness of this documentation (including all disclosures) rests with management. To the best of our knowledge and belief, the data contained herein is accurate in material aspects. This report and its content have been designed to fairly present the Town's financial position, including the result of operations of all the funds of the Town. All the disclosures necessary to enable and to assist the reader in acquiring an accurate understanding of the Town's financial activities have been included.

The Town's management is responsible for establishing accounting and internal control structures designed to ensure that the physical, data, informational, intellectual, and human resource assets of the Town are protected from loss, theft and misuse, and to ensure that adequate accounting information is maintained and reported in conformity with generally accepted accounting principles (GAAP). Management also strives to ensure that these assets are put to good and effective use. The internal control structure is designed to provide reasonable assurances that these objectives are attained.

Overview of the Financial Statements

The financial statements presented herein include all of the activities of the Town of Lincoln using the integrated approach as prescribed by GASB Statement 34.

This discussion and analysis is intended to serve as an introduction to the Town of Lincoln's financial statements. The basic financial statements comprise three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

This report also contains supplementary information in addition to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to most private-sector companies.

The statement of net assets presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the Town's net assets changed during the most recent fiscal year. All of the current year's revenue and expenses are taken into account regardless of when cash is received or paid.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain the control over resources that have been segregated for specific activities or objectives. The Town uses fund accounting to ensure and to

TOWN OF LINCOLN, NEW HAMPSHIRE
MANAGEMENT'S DISCUSSION AND ANALYSIS
Year Ending December 31, 2006 and 2005

demonstrate compliance with finance-related legal requirements. The Town maintains one fund type: governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of expendable resources, as well as on balances of expendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, our readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between the governmental activities statement of net assets and statement of activities.

The Town maintains several individual government funds. Information is presented separately in the government fund balance sheet and the statement of revenues, expenditures and changes in fund balances for the General Fund, Capital Projects Fund and Capital Reserve Fund, all of which are considered major funds.

The Town adopts an annual appropriation budget for its governmental funds. A budgetary comparison has been provided for the General Fund to demonstrate compliance with this budget.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2006

NOTE 1--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Lincoln, New Hampshire conform to accounting principles generally accepted in the United States of America for local governmental units, except as indicated hereinafter. The following is a summary of significant accounting policies.

Financial Reporting Entity

The Town of Lincoln, New Hampshire (the Town) was incorporated in 1764. The Town operates under the Town Meeting form of government and performs local governmental functions authorized by State Law.

The financial statements include those of the various departments governed by the Board of Selectmen and other officials with financial responsibility. The Town has no other organizational units which meet criteria for inclusion in the financial statements as defined by the Governmental Accounting Standards Board.

Basis of Presentation

The Town's basic financial statements consist of government-wide statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

1. Government-Wide Financial Statements:

The statement of net assets and the statement of activities display information about the Town as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The statement of net assets presents the financial condition of the governmental activities of the Town at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the Town's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the Town. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the Town.

2. Fund Financial Statements:

During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial

statements are designed to present financial information of the Town at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column.

Fund Accounting

The Town uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The Town employs the use of one category of fund: governmental.

1. Governmental Funds:

Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the Town's major governmental funds:

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities. The Town accounts for the Sewer Tap Fees, Water and Wastewater Projects in the capital projects fund.

The Capital Reserve Funds account for all financial resources of the various trust arrangements, held by the Trustees of Trust Funds in which the principal and income benefit the various departments of the Town.

Measurement Focus

1. Government-Wide Financial Statements:

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the Town are included on the Statement of Net Assets.

2. Fund Financial Statements:

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial

statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

In the government-wide financial statements, private-sector standards of accounting and financial reporting issued prior to December 1, 1989, are followed to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

1. Revenues – Exchange and Non-exchange Transactions:

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the Town, available means expected to be received within sixty days of fiscal year end.

Non-exchange transactions, in which the Town receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 2). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the Town must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the Town on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year end: property taxes and interest on investments.

Licenses and permits, charges for services, and miscellaneous revenues (except interest on investments) are recorded as revenues when received in cash because they are generally not measurable until actually received.

2. Deferred Revenue:

Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Grants and entitlements received before the eligibility requirements are met are recorded as

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
December 31, 2006

deferred revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

3. Expenses/Expenditures:

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization are not recognized in governmental funds.

Budgetary Data

The Town's budget represents departmental appropriations as authorized by annual or special Town meetings. The Selectmen may transfer funds between operating categories as they deem necessary. The Town adopts its budget under State regulations, which differ somewhat from accounting principles generally accepted in the United States of America in that the focus is on the entire governmental unit rather than on the basis of fund types.

State law requires balanced budgets but permits the use of beginning fund balance to reduce the property tax rate. For the year ended December 31, 2006, the Town applied \$400,000 of its unappropriated fund balance to reduce taxes.

Encumbrance Accounting

Encumbrance accounting, under which purchase orders and other commitments for expenditure of monies are recorded in order to reserve a portion of the applicable appropriation, is employed as an extension of formal budgetary integration in Governmental Funds. Encumbrances outstanding at year end are reported as a component of fund balance since they do not constitute expenditures or liabilities, but rather commitments related to unperformed contracts for goods and services.

Investments

Investments are stated at their fair value in all funds. Certificates of deposit with a maturity of greater than ninety days from the date of issuance are included in investments.

Taxes Receivable

Taxes levied during the current fiscal year and prior and uncollected at December 31, 2006 are recorded as receivables net of reserves for estimated uncollectible of \$4,000.

Capital Assets

General capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets, but are not reported in the fund financial statements.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
December 31, 2006

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. Estimated historical cost was used to value the majority of assets acquired prior to December 31, 2003.

The Town maintains a capitalization threshold of \$10,000. The Town's infrastructure consists of roads, water and sewer lines and drainage systems. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Years</u>
Buildings and improvements	20-50
Vehicles and equipment	8-10
Land improvements	20
Infrastructure	75

Compensated Absences

Employees may accumulate five weeks of vacation and personal time and eight weeks of sick time that may be paid to the employee upon retirement or termination.

Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported in the government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as liabilities in the fund financial statements only to the extent that they are due for payment during the current fiscal year. General obligation bonds and other long-term obligations that will be paid from governmental funds are recognized as a liability in the fund financial statements when due.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances on any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The Town's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Fund Balance Reserves

The Town reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved fund balance indicates that portion which is available for appropriation in future periods. A fund balance reserve has been established for continued appropriations.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 2--PROPERTY TAXES

Taxes are levied on the assessed value of all taxable real property as of the prior April 1 (\$805,006,214 as of April 1, 2006) and were due in two installments on July 3 and December 29. Taxes unpaid after the due date accrue interest at 12% per annum.

The Town collects taxes for the Lincoln-Woodstock Cooperative School District and Grafton County, both independent governmental units, which are remitted to them as required by law. The Town also collects State of New Hampshire Education taxes which are remitted directly to the school district. Taxes appropriated during the year were \$3,068,971 and \$913,703 for the Lincoln-Woodstock Cooperative School District and Grafton County, respectively. The Town bears responsibility for uncollected taxes.

Under State law, the Tax Collector obtains tax liens on properties which have unpaid taxes in the following calendar year after taxes were due for the amount of unpaid taxes, interest and costs. The priority tax liens accrue interest at 18% per annum. If the property is not redeemed within a two year redemption period, the property is tax deeded to the Town.

NOTE 3--RISK MANAGEMENT

The Town is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the year ended December 31, 2006, the Town was a member of the New Hampshire Public Risk Management Exchange (PRIMEX). The Town currently reports all of its risk management activities in its General Fund. These Trusts are classified as a "Risk Pools" in accordance with accounting principles generally accepted in the United States of America.

PRIMEX is a Trust organized to provide certain property and liability insurance coverages to member towns, cities, and other qualified political subdivisions of New Hampshire. The Trust also provides statutory worker's compensation coverage. As a member of PRIMEX, the Town shares in contributing to the cost of and receiving benefits from a self-insured pooled risk management program through annual member premiums. The property and liability insurance program includes a Loss Fund from which is

paid up to \$500,000 for each and every covered property, crime and/or liability loss that exceeds \$1,000. The worker's compensation benefits and employer's liability provides coverage up to \$2,000,000 and includes a Loss Fund from which is paid up to \$500,000 for each and every covered claim.

The Trust agreement permits the Trust to make additional assessments to members should there be a deficiency in Trust assets to meet its liabilities. Accounting principles generally accepted in the United States of America require members of pools with a sharing of risk to determine whether or not such assessment is probable and, if so, a reasonable estimate of such assessment. At this time, the Trust foresees no likelihood of an additional assessment for any of the past years.

Claims expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. Based on the best available information there is no liability at December 31, 2006.

NOTE 4—DEPOSITS AND INVESTMENTS

Deposits and investments as of December 31, 2006 are classified in the accompanying financial statements as follows:

Cash	\$ 1,935,416
Investments	<u>1,911,862</u>
Total cash and investments	<u>\$ 3,847,278</u>

Deposits and investments as of December 31, 2006 consist of the following:

Deposits with financial institutions	\$ 2,327,270
Investments	<u>1,520,008</u>
Total cash and investments	<u>\$ 3,847,278</u>

The Town's cash management policy requires that deposits and investments be made in New Hampshire based financial institutions that are participants in one of the federal depository insurance programs. Deposits are limited to demand deposits, money market accounts, certificates of deposit, and overnight repurchase agreements in accordance with New Hampshire State law (RSA 41:29) or the New Hampshire Public Deposit Investment Pool (NHPDIP), an external investment pool in accordance with New Hampshire State law (RSA 197:23-a). Responsibility for the investments of the Trust Funds is with the Board of Trustees.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)
December 31, 2006

Of the Town's deposits with financial institutions at year end, bank balances of \$483,010 were insured and \$1,752,884 were collateralized by securities held by the bank in the bank's name.

Investment in NHPDIP

The Town is a voluntary participant in the New Hampshire Public Deposit Investment Pool (NHPDIP). The NHPDIP is not registered with the United States Securities and Exchange Commission as an investment company. The NHPDIP was created by state law and is administered by a public body of state, local and banking officials.

Investments in the NHPDIP are not investment securities and, as such, are not categorized by risk. The Town's exposure to derivatives is indirect through its participation in the NHPDIP. The Town's proportional share of these derivatives is not available. The fair value of the position in the investment pool is equal to the value of the pool shares.

NOTE 6--DEFINED BENEFIT PENSION PLAN

Plan Description

The Town contributes to the New Hampshire Retirement System (NHRS), a cost-sharing multiple-employer defined benefit pension plan administered by the NHRS Board of Trustees. The plan provides service, disability, death and vested retirement allowances to plan members and beneficiaries. Benefit provisions are established and may be amended by the New Hampshire State legislature. The NHRS issues a publicly available financial report that includes financial statements and required supplementary information for NHRS. That report may be obtained by writing to New Hampshire Retirement System, 4 Chenell Drive, Concord, New Hampshire 03301.

Funding Policy

Covered public safety and general employees are required to contribute 9.3% or 5.0% of their covered salary, respectively, and the Town is required to contribute at an actuarially determined rate. The Town's contribution rates for the covered payroll of police officers and general employees were 9.68% and 6.81%, respectively through December 31, 2006. The Town contributes 65% of the employer cost for public safety officers employed by the Town and the State contributes the remaining 35% of the employer cost. The Town contributes 100% of the employer cost for general employees of the Town. On-behalf fringe benefits (GASB Statement #24) contributed by the State of New Hampshire of \$16,318 have been reported as a revenue and expenditure in the General Fund of these Financial Statements.

Under State law (RSA-100:16), plan member contribution rates are established and may be amended by the New Hampshire State legislature and employer contribution rates are determined by the NHRS Board of Trustees based on an actuarial valuation. The Town's contributions to the NHRS for the year ending December 31, 2006, 2005 and 2004 were \$75,975, \$69,740, and \$59,406, equal to the required contributions for those years.

NOTE 7—LONG-TERM OBLIGATIONS

General obligation debt is a direct obligation of the Town, for which full faith and credit is pledged, and is payable from taxes levied on all taxable property located within the Town.

TOWN OF LINCOLN, NEW HAMPSHIRE
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
December 31, 2006

NOTE 1--BUDGET TO ACTUAL RECONCILIATION

General Fund

Amounts recorded as budgetary amounts in the Schedule of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual (Budgetary Basis) – General Fund (Schedule 1) are reported on the basis budgeted by the Town. Those amounts differ from those reported in conformity with accounting principles generally accepted in the United States of America in the Statement of Revenues, Expenditures and Changes in Fund Balances – Governmental Funds (Exhibit D). Budgetary information in these financial statements has been presented only for the General Fund as it is neither practical nor meaningful for other funds. Budgetary revenues and expenditures were adjusted as follows:

	Revenues and Other Financing <u>Sources</u>	Expenditures and Other Financing <u>Uses</u>
Exhibit D	\$ 3,945,982	\$ 3,827,190
Difference in property taxes meeting susceptible to accrual	(17,090)	
On-behalf fringe benefits	(16,318)	(16,318)
Encumbrances, December 31, 2006		3,000
Schedule 1	<u>\$ 3,912,574</u>	<u>\$ 3,813,872</u>

NOTE 2--BUDGETARY FUND BALANCES

The components of the budgetary fund balance for the Town's General Fund are as follows:

Unreserved:	
Designated for subsequent years' expenditures	\$ 71,369
Undesignated	<u>1,147,322</u>
	<u>\$ 1,218,691</u>

NOTE 3--UNRESERVED DESIGNATED FUND BALANCES

Appropriations for certain projects and specific items not fully expended at year end are carried forward as continuing appropriations to the next year in which they supplement the appropriations of that year. At year end, continuing appropriations are reported as a component of the General Fund's unreserved fund balance and are detailed as follows:

Unexpended highway block grant	<u>\$ 71,369</u>

REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Selectmen
Town of Lincoln, New Hampshire

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Lincoln, New Hampshire, as of and for the year ended December 31, 2006, and have issued our report thereon dated July 17, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Town of Lincoln, New Hampshire's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the effectiveness of internal control over financial reporting. Accordingly, we do not express an opinion of the Town of Lincoln, New Hampshire's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely effects the Town's ability to initiate, authorize, record, process, or report financial data reliably in accordance with accounting principles generally accepted in the United States of America such that there is more than a remote likelihood that a misstatement of the Town's financial statements that is more than inconsequential will not be prevented or detected by the Town's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Town's internal control.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting and its operation that we consider to be material weaknesses as defined above.

Compliance

As part of obtaining reasonable assurance about whether the Town of Lincoln, New Hampshire's financial statements are free of material misstatement, we performed tests of compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended for the information of management, the Board of Selectmen, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

Incorporated: 1764

Origin: Long before Abraham Lincoln's birth, this town was named in 1764 for Henry Clinton, ninth Earl of Lincoln, a cousin to the Wentworths. He held the position of Comptroller of Customs for the port of London under George II and George III, which was important to trade between America and England. In 1772, on claim of forfeiture by Sir Francis Bernard and others, a regrant was issued. However, a court decision in the case of Landaff and Dartmouth College that such forfeiture was illegal returned ownership to the original grant recipients. A portion of Lincoln, known as Pullman, was one of the earliest lumber towns. Lincoln is second-largest town in land area; only Pittsburg is larger.

Villages and Place Names: North Lincoln, Stillwater

Population, Year of the First Census Taken: 22 residents in 1790

Population Trends: Lincoln was one of five communities with a population decrease over the last five decades. Population change for Lincoln totaled 144, from 1,415 in 1950 down to 1,271 in 2000. The largest decennial percent change was a 13 percent decrease between 1950 and 1960. The 2006 Census estimate for Lincoln was 1,317 residents, which ranked 169th among New Hampshire's incorporated cities and towns.

Population Density, 2006: 10.1 persons per square mile of land area. Lincoln contains 130.8 square miles of land area and 0.2 square miles of inland water area.

This issue of the Annual Report is dedicated to the Lincoln-Woodstock Recreation Department. The recreation department is a cooperative arrangement, whereby the budget is split equally between Lincoln and Woodstock.

The recreation department operates the Kancamagus Recreation Area, the Father Roger Bilodeau Community Center, and the Lincoln-Woodstock Community Ballfield. The Kanc Recreation Area is seasonally a ski area (including rope tow ski slope, a beginner ski/sledding hill and a skating rink) and a summer day camp program location for 5-9 year olds. The "Kanc" is also "home field" for our baseball players, the location for our playground, and holds 2 outdoor basketball courts and a picnic area. The Father Roger Bilodeau Community Center leases space to the LinWood Child Care Center and the Grafton County Senior Services, including the site for community meals and Meals-on-Wheels prep. The recreation department also uses this center to run a summer adventure camp program for 10-14 year olds, an after school program for K-4th graders, an outing club, a dance program, a karate program, parenting classes and many evening adult activities. The new Lincoln-Woodstock Community Ballfield is a combination soccer and softball complex that includes dugouts, bathrooms, concession stand, storage areas, an electronic scoreboard, a memorial flagpole and a walking trail. This new Ballfield is "home field" for our soccer, softball and T-ball programs.

All of these facilities and the many programs, trips, events and activities that are offered each year are staffed by a recreation director, a full-time program coordinator for the community center (who also serves as our Adventure Camp director), a seasonally full-time maintenance person for the Kanc Recreation Area and a part-time, year-round cleaning person for the community center. Seasonal employees are often young people earning their first paychecks. They and volunteer coaches give their heartfelt contributions in time and energy each year to ski area operations, camp counseling, program instruction, coaching or for the many events. They are the reason for the success of the Recreation Departments programs and facilities and are much appreciated!
